On October 1st, we proudly celebrated one year since welcoming our very first resident to Whispering Willows. We also celebrate two major achievements: a Deficiency-Free State Survey and being awarded Skagit County's Best Memory Care Community. The past year has been incredibly rewarding. From the beginning, our mission has been clear, providing exceptional care for our residents, and that commitment has never wavered. Thank you for believing in our vision and trusting us with the care of your loved ones. We look forward to many more years of compassionate service and continued excellence.
