

## ***December Special***

We are now offering Facial Cupping with Gua Sha as an add-on to any Facial Treatment!

Facial cupping is based on the same principle as body cupping, but uses smaller and softer cups to stimulate your skin and muscles. The best part about facial cupping is the multifaceted benefits. First, it increases oxygen-rich blood circulation and revitalizes your skin! Second, it strengthens your skin and connective tissues, reducing sagging and making your skin firmer and tighter!

Facial Gua Sha, relieves muscle tension, improves circulation and helps with lymphatic drainage.. It can also help with contouring and sculpting of the face!

Add-on Facial Cupping with Gua Sha to any Facial for \$25

\*Please note that this add-on requires an additional 10mins, booking ahead of time is recommended to accommodate your request
