

MMW MOBILE MISTING

The MULTIMISTER Static misting pump units are designed for heavy industrial misting or fogging applications. Ideal for cooling, odour control, dust suppression, humidification, and special effects creations. A range of electric powered pump options are built into a secure cabinet with integral control equipment to power misting, fogging and mist cannons up to 70 bar pressure.

Low pressure inlet

With solenoid valve to prevent nozzles dripping when not in use.

Strong cabinet

Heavy duty steel construction and powder coated.

High pressure outlet

For supplying misting and fogging hose lines

Control

Power switch with motor overload protection.

Dual stage filtration

For maximising the lifespan of the nozzles.

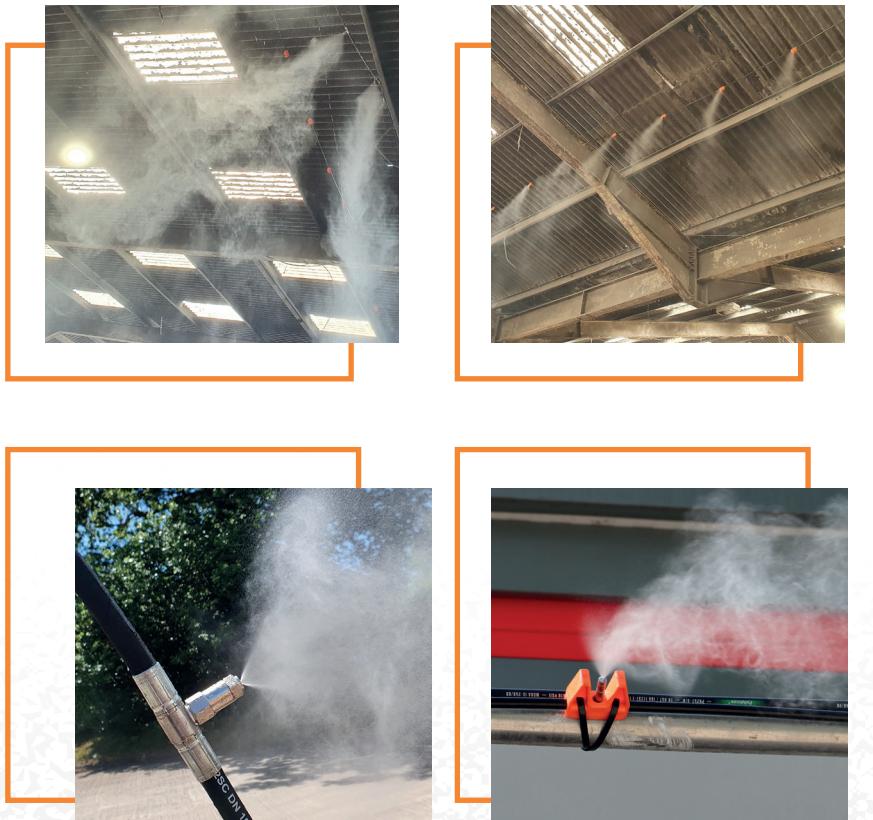

Performance check

Pump pressure gauge.
