June 26th: **Last Day of School**

Enjoy your summer !!! ☺

June Units Of Study

ELA: HMH Module 7: *Stories on Stage*—Students will listen to, read, and view a variety of texts and media that give them information about the features of drama and its unique features, including dialogue, characters, scenes, and stage directions.

Math: *Attributes of Two-Dimensional Shapes*—Students will identify, compare, and classify 2D shapes based on their attributes, including the number of sides, vertices, and angles. Students will use precise mathematical vocabulary to describe and explain the similarities and differences among shapes.

Science: *Environments and Survival*—Students will investigate how the traits of grove snails affect their survival in changing environments. Through hands-on activities and discussions, students will explain why some snails survive better than others and design solutions to help organisms adapt.

Social Studies: Students will begin exploring Nigeria's physiography and examine how human-made features address problems, the solutions created, and their impacts.
