Knowledge Base

The LearncomPro platform supports sharing learning materials in multiple formats. Thanks to the SCORM standard, these can include not only complete e-learning courses created with state-of-the-art software such as Articulate Storyline or iSpring, but also other electronic files which may support training activities.

- ✓ SCORM courses
- ✓ Documents
- ✓ Tests
- ✓ Surveys
- ✓ Assignments

Monitoring Progress

The platform administrator can quickly produce reports representing the most recent data concerning users and their training progress. The reports are displayed as tables, can be easily exported to Microsoft Excel, and can be set to generate and send automatically.

Downloadable reports

- ✓ Readable format
- ✓ Selectable categories
- ✓ Ready-made templates
- ✓ Export to MS Excel
- ✓ Easy operation
- ✓ Recurring reports

Verifying Knowledge

The LMS features an extensive reporting module. The platform administrator can quickly produce reports representing the most recent data on the platform users and their training progress. The reports are displayed as tables, can be easily exported to Microsoft Excel, and can be set to generate and send automatically.

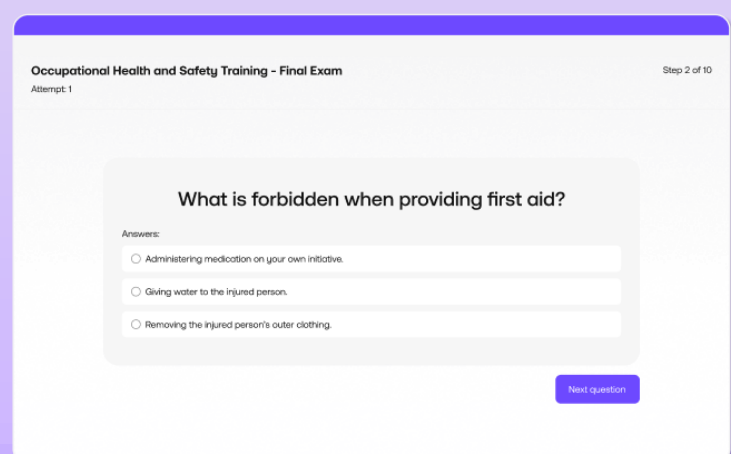

Question types

- ✓ Single choice
- ✓ Multiple choice
- ✓ True/False
- ✓ Matching pairs
- ✓ Ordering events

Test rules

- ✓ Shuffled items
- ✓ Time limit
- ✓ Activity dates
- ✓ Number of attempts
- ✓ Point/Percentage passing threshold

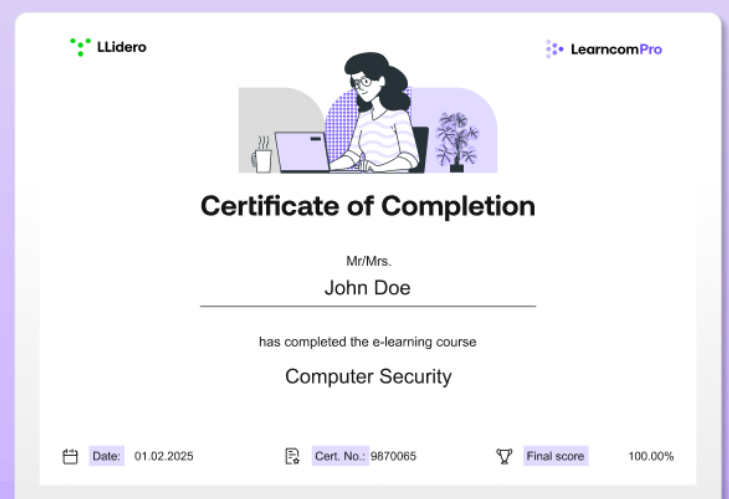

Certification

Every user who successfully completes a course or a test can generate their own unique certificate. The certificate is downloadable as a PDF file. The certificate includes information generated and filled by the LMS based on the completed course and the user's details.

- ✓ Name
- ✓ Course title
- ✓ Achieved result
- ✓ Completion date
- ✓ Unique number

Generative AI on the LearncomPro Platform

✓ **AI Support**

helps with navigating the LMS and troubleshooting

✓ **Personalized Recommendations**

suggest further steps for training or skill development

✓ **AI Experts**

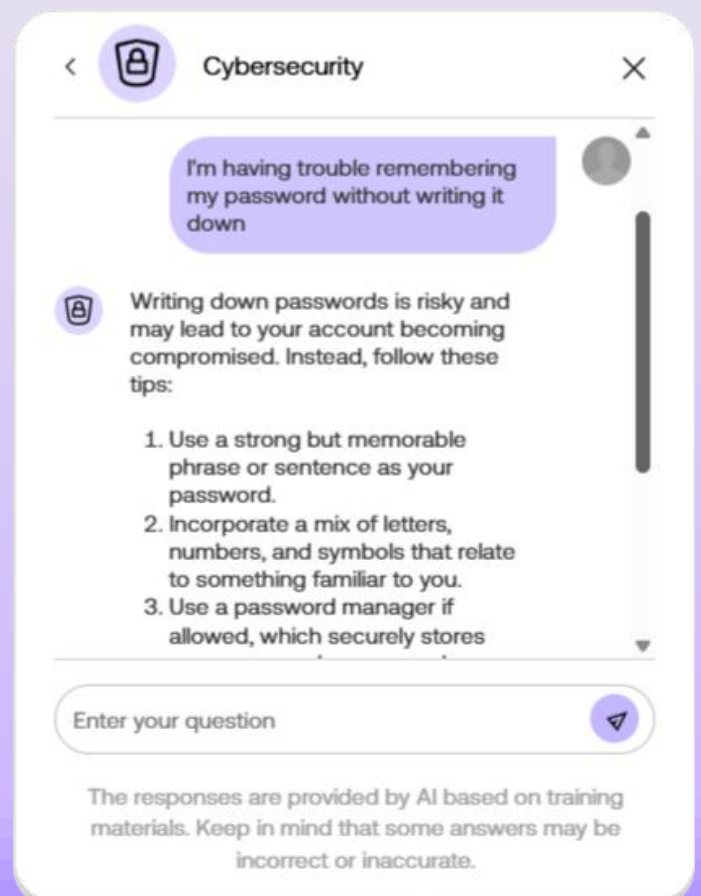

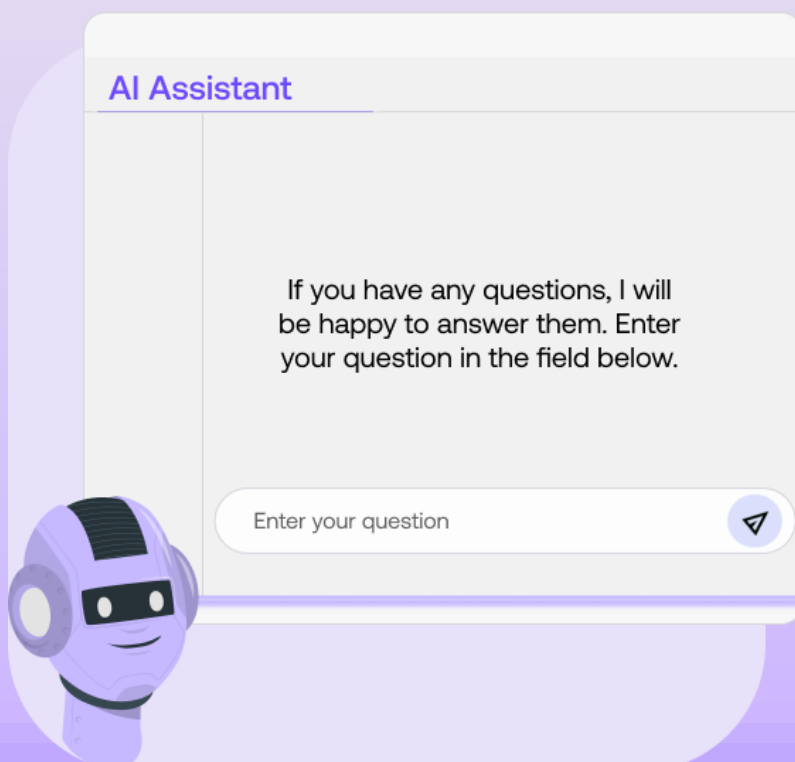

provide answers based on course materials

✓ **Admin Assistant**

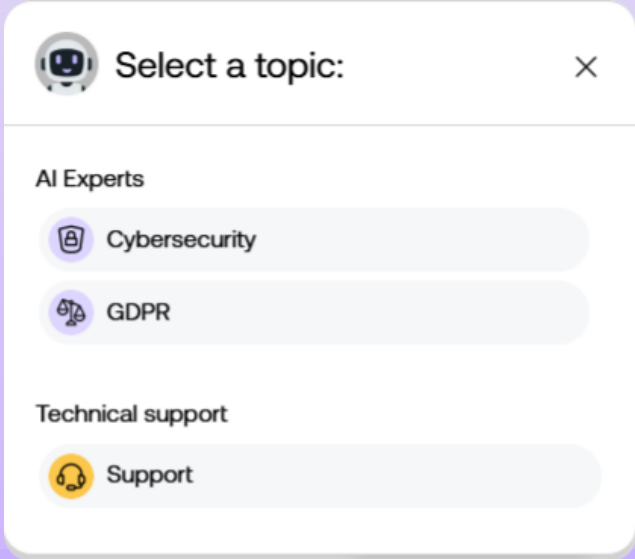

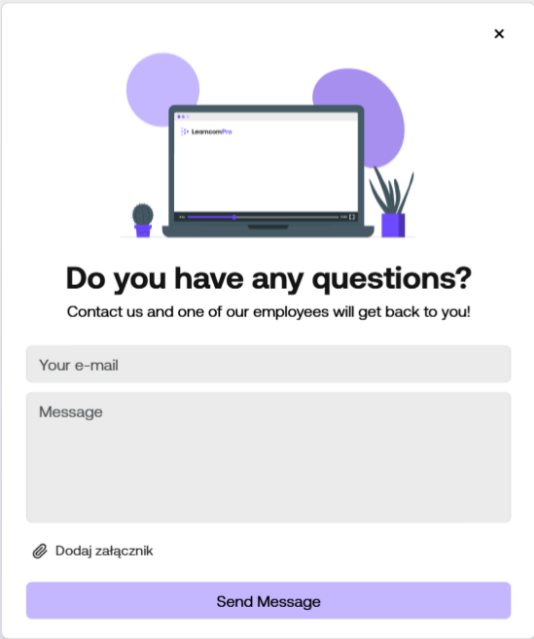

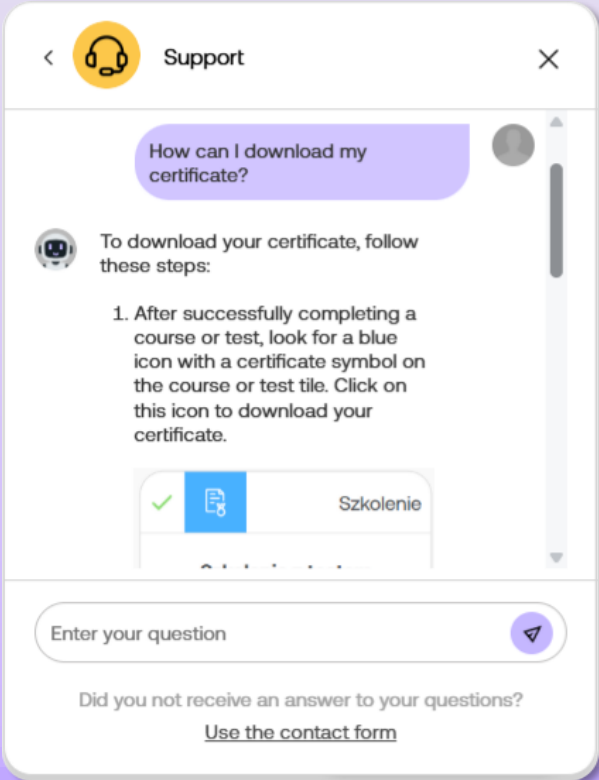

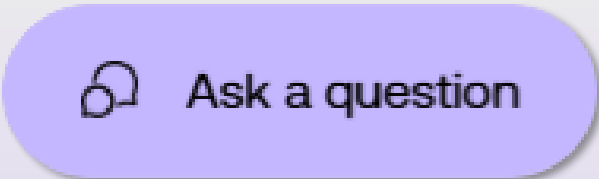

helps with managing user accounts and courses

✓ **Dedicated AI Solutions**

can be custom-made and tailored for your organization

AI Support helps users navigate the LMS and shows them how to start a course, obtain a certificate, verify results, troubleshoot frequently encountered issues or difficulties and, if necessary, makes it easy to submit a ticket to the human support team.
