

Independent Patient Advocacy for the People You Support

MYNA partners with organizations to provide independent patient advocacy and healthcare navigation to the people they support, helping individuals and families navigate complex healthcare situations with greater clarity and confidence.

MYNA is the first patient advocacy practice in the UAE with Board Certified Patient Advocates (BCPA) certified by the US Patient Advocate Certification Board (PACB).

Organizations We Partner With

Employers

Reducing the navigation burden for employees and their families facing complex healthcare situations.

Healthcare Providers

Extending independent advocacy, navigation, and practical support for individuals and families beyond the clinical setting.

Educational Institutions

Supporting wellbeing and continuity by helping students, families, and staff navigate healthcare challenges alongside educational responsibilities.

Insurance & Benefits Partners

Helping members navigate healthcare pathways, coordinate across providers, and better understand and access available resources.

Why MYNA?

Complements Existing Services

Works alongside existing services, extending support to the people your organization serves without replacing internal teams or duplicating existing resources.

Individual-Centered Advocacy

Focused on the needs, preferences, and goals of each individual, supporting informed decision-making throughout their healthcare journey.

Board Certified Expertise

Led by Board Certified Patient Advocates (BCPA) certified by the US Patient Advocate Certification Board (PACB), reflecting recognized knowledge and competency in patient advocacy.

Start a Partnership Conversation

Let's explore how MYNA can support the people your organization serves when healthcare becomes complex.
