

# Getting Started with Cybersuite X

## How to Change Your Password

If you need to update your password for security reasons or if you forgot it, follow these steps:

### If You Are Logged In:

1. **Open** the **Cybersuite X** app.
2. **Tap** on the **Profile** icon, **bottom-right corner of the home screen**.
3. **Tap** the arrow beside **“Account Profile”**.
4. Select **Change Password**.
5. Enter your **current password**.
6. Enter a **new secure password** and confirm it.
7. **Tap “Done”**. Your password is now updated.

### If You Forgot Your Password:

1. On the login screen, **tap “Forgot Password?”**.
2. Enter your **registered email**.
3. Check your email for a **reset password** email from **welcome@cybersuitex.com**
4. Follow the instructions to create a **new password**.
5. **Log in** on the app using your new password.

### Tip:

- *Use a mix of uppercase, lowercase, numbers, and symbols for a strong password!*

## How to Toggle On Email Notifications

By default, **Cybersuite X** sends push notifications to your device. If you prefer to receive email notifications, you’ll need to manually enable them after creating your account.

### Steps to Enable Email Notifications:

1. **Open** the **Cybersuite X** app.
2. **Tap** the **"Profile"** icon in **the bottom-right corner of the home screen**.
3. **Tap** the arrow beside **“Account Profile”** to access notification settings.
4. **Toggle on "Email Notifications"** - The switch will turn blue when enabled (grey means it's off).

Once enabled, you’ll start receiving important email updates about your building and account activities.

### Note:

- *Pending users who have been invited but haven’t created an account will still receive email notifications until they register.*
