Testimonials ★★★★★

“Refreshing team bonding experience

It was a great team bonding experience, solving clues and learning about the area. It took us 1.5h in total and time just went by really quickly. The breaks incorporated were brilliant. We definitely wouldn't stop at one game and plan to try out the other locations next time!”

Neerodnat

“Chinatown Experience

We opted for the Chinatown Game as part of our company's bonding event. Jun Wei from Hidden was very responsive and helpful in the lead up to the event. Come the day of the game, it was run very smoothly, without any hiccups. The participants had fun too, and were able to discover hidden gems in the Chinatown area as well. Thanks for the great service!”

Daryl C

“Well crafted experience

Really good fun to be exploring the area. Never knew many things about where we went, even though it's a popular place! Should support!!”

Our Proprietary Tech Enables

Inclusivity for All Participants

Engaging actively in the game ensures that everyone, including those who are more introverted, feels included and adds to the immersive experience for all participants.

Enhanced Data Privacy

It guarantees the confidentiality and security of essential game data on the designated platform, ensuring data privacy, particularly in large corporate environments, without the need to disclose personal contact information.

Smooth Operations at Venues

To avoid unexpected overcrowding at venues and vendors, it is vital to maintain a smooth experience for all participants. This helps prevent any disruptions that might impede the game's flow and responsiveness.
