

Birds of Quivira Through the Lenses of

BIRDS IN FOCUS™

This selection of extraordinary images of birds at the Quivira National Wildlife Refuge are a few of the many made by Kansas photographers Bob Gress, David Seibel and Judd Patterson.

Our goal at **Birds In Focus** is to provide a single location for top-quality bird photographs. Each photograph is tagged with ornithological details and available through fast, dynamic searches. New images are added frequently, and we certainly entertain special requests. You may enjoy viewing some of our favorite images or recent publications. Thank you very much for visiting www.birdsinfocus.com.

— Bob, Judd, and David
