

City of Patterson Nominated for California's Most Embarrassing Housing Award

Congratulations to Patterson's Mayor, City Council, and Sacramento legal team for its nomination as a recipient of YIMBY Action's **Golden Zucchini Award**, given to the **worst offenders of housing obstruction in California**.

It takes real commitment to earn this kind of recognition, including 15 years spent blocking 719 homes, millions wasted on lawyers, and years out of compliance with state housing law. All while rubber-stamping five million square feet of distribution and warehousing projects.

Patterson's residents deserve leaders focused on building homes, not collecting awards for blocking them.

See the documents. Follow the money.
