

## CASE STUDY

# Accelerating Financial Booking from 28+ to Just 7 Days

## Customer Profile

Large national home goods retailer with a high-volume, 60+ carrier network

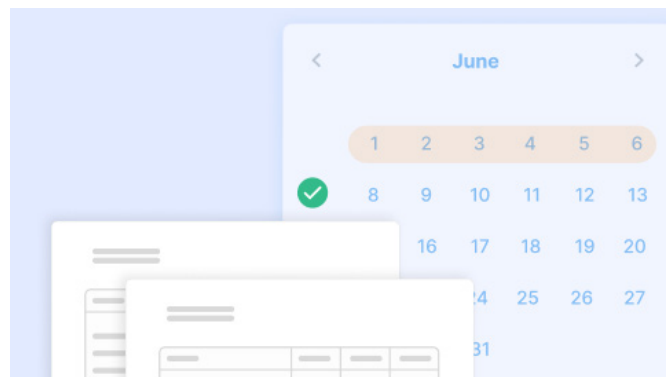

## Challenge

- It previously took 28+ days to process invoices and migrate them into AP
- Delayed transportation invoice processing led to inaccurate and/or late financial booking and limited spend visibility

## Solution

- Processed carrier invoices faster through Intelligent Audit
- Accelerated invoice validation and migration into AP workflow
- Reduced lag time between invoice receipt, processing, and booking

### ROI & Impact

**75%** faster financial booking cycle

Improved AP readiness by moving invoices into workflow sooner

Increased visibility into transportation spend earlier

Reduced nearly month-long processing to a one-week workflow
