EXCELLENCE IN DESIGN | **COLUMBUS**

# FROM CONCEPT TO CONSTRUCTION

At **Behal Sampson Dietz**, a through line of creativity, organization, and collaboration yields extraordinary homes.

There are architects. There are builders. And then there are architects that build: modern craftspeople who deliver on the promise of a seamless design-build experience. From renovations to additions to new builds, from traditional to contemporary to fearlessly daring, the architects, builders, and skilled craftspeople of Behal Sampson Dietz work closely with each client as dreams grow organically into homes that both shelter and inspire.

"We are an architectural firm and a construction company under one roof," says Nathan Sampson, RA, LEED AP, a partner in the firm. "Our clients are discerning and insightful; we integrate them into every step of the architectural process. Working together, we create designs that are unique expressions of who they are. Our construction team is involved from the start so nothing is lost in translation and the vision stays consistent."

The firm's clients benefit greatly from this approach, but so does the company, says Sampson. "Designing and building a home is a complex process. By providing people with a single source of responsibility throughout the design and construction of their home, our company comes away with something invaluable—an enduring relationship with the client," he explains.

Recently completed homes feature graceful arched windows and doorways, stunning staircases, and geometric vaulted ceilings, all built with an old-world attention to detail. "This is the kind of result clients can expect when there is a skilled, guiding hand to see the process through from start to finish," says Sampson.

**CLOCKWISE FROM TOP:** This genre-bending grand entryway features bold octagonal tiles, a sweeping stairway, and elegant raised-panel millwork. A soaring vaulted ceiling in pale wood unites two distinct living spaces: a state-of-the-art kitchen and the adjoining great room in which the intense blues of the rug and furnishings provide playful contrast. Arched doorways draw the eye to a dining area—and the landscape beyond.
