Past performance is no guarantee of future performance. An investment in the Fund is subject to certain risks, including market risk. In general, shares of closed-end funds often trade at a discount from their net asset value and at the time of sale may be trading on the exchange at a price which is more or less than the original purchase price or the net asset value. There can be no assurance that any Share repurchases will reduce or eliminate the discount of the Fund’s market price to the Fund’s net asset value per share.
