

Zone 5 Technologies Selected for U.S. Navy Coalition Heterogeneous Affordable Offensive Strike (CHAOS) Program

A new agreement to rapidly field maritime strike capabilities to the U.S. and its allies.

SAN LUIS OBISPO, Calif. – The U.S. Navy, selected Zone 5 Technologies for the Coalition Heterogeneous Affordable Offensive Strike (CHAOS) program, a major weapons initiative to field affordable and scalable precision strike weapons for land and maneuvering maritime targets. Under the \$65M Other Transaction Agreement (OTA) with CMG Networks on behalf of Naval Aviation Systems Consortium, Zone 5 will design, build, test, and deliver the CHAOS variant of its AGM-188 Rusty Dagger.

“Zone 5 is proud to partner with the Navy on CHAOS and deliver industry-best scalable maritime strike capabilities to the U.S. and our allies,” said Thomas Akers, CEO of Zone 5 Technologies.

Under the effort with PAE Munitions and its Precision Strike Weapons program office, PMX-201, Zone 5 will leverage its successes in rapidly fielding precision strike weapons across service branches and international partners to provide the United States and coalition partners with a credible, affordable, and scalable maritime strike capability.

About Zone 5 Technologies, a Kongsberg Company

Zone 5 Technologies, a Kongsberg Company, is an aerospace engineering and production company focused on modular, open-architecture counter-UAS interceptors and affordable Gound- and Air- launched effects. Founded in 2011, the company employs more than 500+ engineers, technicians, and support staff across the country with major manufacturing in California, Texas, and Ohio.
