

# 10 CYBERNUT SAFETY TIPS

# 1

Be cautious with mail containing links and attachments

# 2

Beware of a sense of urgency; give yourself time to think

# 3

Check the 'From' address; it should match the sender's name

# 4

Generic greetings, typos, poor grammar, and tone can be red flags

# 5

Don't get fooled by offers that are "too good to be true"

# 6

If you receive an odd or unusual request, call the sender independently to verify

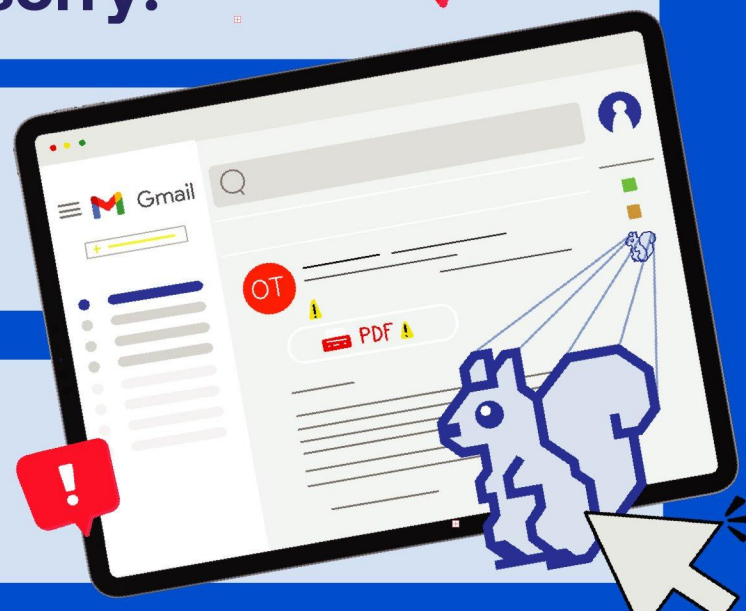

# 7

When you see a suspicious email it's always better to be safe than sorry!

# 8

Click on the Blue Squirrel in the side bar

# 9

Hit the red report button

# 10

By reporting suspicious email you are helping keep your school and community safe!
