Disclaimer: Performance as of 06/30/2026. *Strategy metrics as of 06/30/2026. Herzfeld performance includes reinvestment of dividends, are net of fees & commissions. Performance based on USD. Past performance not indicative of future results. The Firm claims compliance with the Global Investment Performance Standards (GIPS®) and has been independently verified for the periods 12/31/1999 to 12/31/2023. Pending final verification through 06/30/26.

This material is intended to facilitate your discussion with Thomas J. Herzfeld Advisors, Inc. ("the Firm") about the services available to our clients. The Firm is an independent registered investment adviser (RIA). Results are based on fully discretionary accounts under management, including those accounts no longer with the Firm. The information provided in this presentation does not constitute, and should not be construed as, an offer or solicitation with respect to any securities, products or services discussed or managed by the Firm. Any offer or solicitation with respect to any such securities or products can only be made by means of an investment management agreement or other agreement that governs the creation or establishment of an investment account managed by the Firm. Past performance is not a guide to future performance and future returns are not guaranteed. Clients' results may differ from those of the Composites. Form ADV Part 2A Brochure is available upon request.

Performance data quoted represents past performance, which is no guarantee of future results. Current performance may vary from the performance quoted.

Investing in closed-end funds involves risk, including loss of principal. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. In addition, there is no guarantee the strategy's investment objectives will be achieved. You should consider the strategy's investment objectives, risks, and charges and expenses carefully before you invest. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. It is important to remember that there are risks inherent in any investment and there is no assurance that any investment or asset class will provide positive performance over time.

The U.S. Dollar is the currency used to express past performance. Amounts reported for Firm and Strategy assets reflect regulatory assets under management (RAUM) as of the date indicated. Indices are provided for comparison against Herzfeld composites. Indices are unmanaged and reflect the reinvestment of dividends; all performance data is as of June 30, 2026 unless otherwise indicated. Performance data for the one-year period ending June 30, 2026 is subject to final audit and reconciliation. The Firm does not provide tax or legal advice to its clients.

The benchmark for this composite is the HFRX Special Situations Index. The HFRX Special Situations Index strategies employ an investment process primarily focused on opportunities in equity and equity related instruments of companies which are currently engaged in a corporate transaction, security issuance/repurchase, asset sales, division spin-off or other catalyst oriented situation.

The Firm's full GIPS® reports and composite and benchmark descriptions available upon request.

The Firm has been independently verified for the periods December 31, 1999 to December 31, 2023. Pending final verification through June 30, 2026.

The Morningstar Rating™ for funds, or "star rating", is calculated as of 03/31/2026, for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

The Herzfeld Special Situations Composite was rated against the following numbers of Morningstar™ Tactical Allocation Category funds over the following time periods: 367 funds in the last three years, 315 funds in the last five years, and 201 funds in the last ten years. Past performance is no guarantee of future results.

TJH has received certain nominations or awards by third-parties as reflected herein. Investors should review the criteria for each nomination or award as reflected on the third-party's webpage. In addition, the nominations and awards reflect past performance of the nominee or award designee and may not reflect the current performance or status of any such firm or individual and may no longer be applicable. Morningstar award content presented with permission and licensing fee. Contact us for more information on how the ratings are apportioned and for full disclosures regarding third party news and awards.
