Club of San Antonio

Member Non-Profit Guide

Dear Fellow Rotarian,

Rotary International describes Rotarians as “People of Action,” and nowhere is that spirit more evident than within our own club. This guide shines a light on fellow Rotarians who are leading and serving through local nonprofit organizations, while also offering meaningful opportunities for each of us to deepen our connection to the community — whether through volunteering, advocacy, or charitable support.

As a club, we maintain a tradition of not directly soliciting fellow members. At the same time, we know many Rotarians are eager to engage more intentionally with causes that align with their passions and values. This guide is intended to serve as a resource and starting point for connection. You may wish to reach out to a fellow Rotarian serving as an executive director or community leader to learn more about their mission, arrange a speaker for your organization, or collaborate on a volunteer initiative for your business, team, or family.

Rotary reminds us that when we give our time, talents, and compassion in service to others, the impact reaches far beyond the work itself. The relationships we build, the lives we touch, and the sense of purpose we share return those gifts many times over.

I hope this guide inspires you to become even more engaged in the causes that matter most to you — whether through Rotarian-led organizations or in any way that fulfills our shared commitment to “Service Above Self.” Thank you for all you do to strengthen our community, our city, and our world.

VIVA Rotary!

Kelley Frost

Overview: Since its charter in 1988, Assistance League of San Antonio member volunteers have served underprivileged children and their families in the San Antonio and Bexar County community. During the year 2024-2025, 324 members and fifty community volunteers contributed over 69,175 hours to serve over 32,000 children and adults in the Bexar County community.

Our two major programs, Operation School Bell® and Togs For Tots, provide clothing for children' combined impacted over 25,000 children and families in 2024-2025.

Through Operation School Bell we provide new clothes, shoes, jackets, hygiene kits, and books to kindergarten through fifth grade children attending Title I schools. These at-risk children are identified by school personnel as having inadequate or inappropriate clothing for school – one part of the sad equation leading children to skip school and have behavioral and academic problems.
