

# WOLFGANG EDER

## in 92 words

Wolfgang Eder is a keynote speaker, university lecturer, executive coach, and founder of AI-EQ — Emotional Intelligence in Dealing with AI. His focus is on how humans and Artificial Intelligence can grow together into high-performing teams. Through his keynotes, deep-dive workshops, and consulting projects, he helps leaders understand AI not merely as a technology, but as a new "team member." He combines years of leadership experience with strong AI competency and a clear focus on effectiveness, responsibility, and collaboration.

Wolfgang Eder stands for a style of leadership that consciously unites humanity with technological development — creating genuine future readiness.
