NTRO INTERNATIONAL CONFERENCE 2027

THE TRANSPORT CHALLENGE

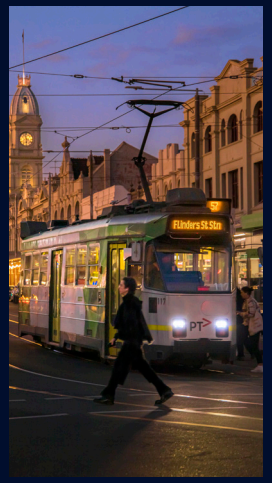

SOLVING WHAT MATTERS

PARTNERSHIP
PROSPECTUS

23.05.2027 — 26.05.2027

THE TRANSPORT CHALLENGE: SOLVING WHAT MATTERS.

We are excited to announce the 2027 NTRO International Conference, taking place in Melbourne from 23–26 May 2027.

Join global leaders in transport innovation as we explore how the industry is responding to increasingly complex challenges through practical thinking, collaboration and innovation.

Building on the success of the 2025 event, the conference will showcase cutting-edge approaches to safer, smarter and more sustainable mobility — from advanced infrastructure materials and asset management to the growing role of data, automation and measurement in driving transformation.

Engage with real-world case studies delivering decarbonisation, resilience and operational efficiency, while helping shape a more connected, inclusive and energy-conscious transport future.

Be part of a global conversation driving next-generation transport systems and enabling meaningful change.
