Wideset License Agreement

Effective Date: 26.06.2025

1. Introduction

This License Agreement ("Agreement") governs the use of the Wideset Design System ("Product") developed and distributed by Michal Parulski, sole proprietorship, Poland. By purchasing, downloading, or using Wideset, you agree to be bound by the terms of this Agreement.

2. License Types & Grant of License

We grant you a non-exclusive, non-transferable, non-sublicensable license to use the Wideset Design System under the following conditions:

2.1. Solo License (Individual Use): One (1) license grants usage rights to a single individual for personal or freelance projects. Sharing, transferring, or sublicensing the Product is not allowed.

2.2. Team License (Internal Use, up to 20 Users): One (1) license grants usage rights to a team within the organization for internal use only, limited to a maximum of 20 users. Exceeding this limit requires the purchase of additional licenses. Usage outside your organization is prohibited.

3. Product Levels

3.1. Basic License (One-time Payment): Grants access to the Core Wideset only. This includes the essential design system components delivered at the time of purchase. No updates, add-ons, additional styles, or access to the Wideset Slack community are included.

3.2. Pro License (Annual Subscription): Grants access to:

3.2.1. Core Wideset

3.2.2. Add-ons such as additional styles, design tokens, UI kits, and similar resources

3.2.3. All updates released during your active subscription period

3.2.4. Access to the Wideset Slack community

If the subscription is canceled or not renewed, you lose access to future updates and Slack community participation but retain a perpetual license for all assets and versions received during your active subscription.

Upgrading from Basic to Pro is possible at any time. Upon upgrading, you gain access to all add-ons and updates produced by us to date.

4. Permitted Uses

4.1. You may:

4.1.1. Use Wideset to create unlimited end products for yourself or your clients

4.1.2. Modify components, tokens, and styles to suit your projects

4.1.3. Transfer final deliverables (websites, apps, designs) to clients for internal use

4.2. You may not:

4.2.1. Resell, redistribute, share, sublicense, or transfer the Wideset files or derivatives

4.2.2. Upload the Wideset Product or its components to public libraries, repositories, or marketplaces

4.2.3. Use Wideset to create a competing design system or resource

5. Ownership

All rights, title, and interest in and to the Wideset Design System (including updates, modifications, enhancements, add-ons, and additional resources) remain the exclusive property of Michal Parulski. You are granted a license to use, not ownership of, the Product.

6. Updates and Subscription

Pro License holders receive updates, add-ons, and new resources released during their active subscription period. Subscription renewals are billed annually unless canceled. Basic License holders do not receive updates beyond the version purchased.

Failure to renew a Pro subscription results in the loss of access to future updates and the Slack community but does not affect your license to use assets provided during your active subscription.

7. Refunds

All purchases are final and non-refundable, except in cases where the file cannot be accessed due to a technical fault verified by our support team.

8. Termination

Violation of this License Agreement, including unauthorized sharing or redistribution, may result in immediate termination of your license and legal action. Each confirmed breach may result in a penalty fee of up to $10,000 USD per incident.

9. Limitations of Liability

Wideset is provided "as is" without warranty of any kind. We are not liable for any direct, indirect, incidental, or consequential damages arising out of your use of the Product.

10. Governing Law

This Agreement shall be governed by and construed in accordance with the laws of Poland. However, international users may have additional rights under their local consumer protection laws.
