

UNIQUE POLYMER SYSTEMS

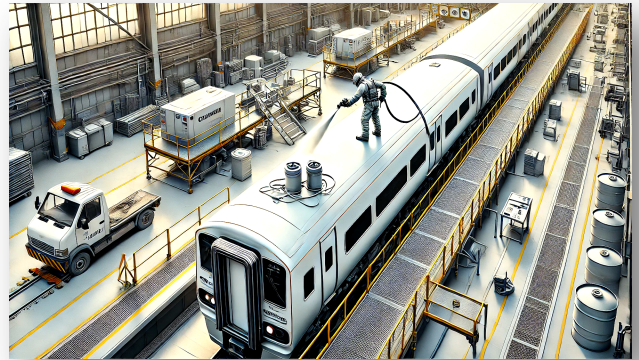

UPS 510 UN UNI-NOX

YOUR ULTIMATE SOLUTION FOR LONG-LAST CORROSION PROTECTION

WHY CHOOSE UPS 510 UN UNI-NOX

- **Superior Corrosion Protection:** Designed for long-term performance on hydro-blasted, mechanically abraded, or abrasive blast-cleaned surfaces.
- **Outstanding UV Resistance:** Protects against weathering and maintains durability even under harsh conditions.
- **Single Pack, High Build Acrylic Coating:** Ready to use with exceptional ease of application.
- **10+ Years Protection:** Proven reliability for metallic and cementitious surfaces.
- **Flexible Once Cured:** Adapts to structural movement without cracking.
- **Surface Spread of Flame:** Class 1

PERFECT FOR VARIOUS APPLICATIONS

Ideal for protecting:

- Structural steel
- External tank surfaces
- Concrete structures
- Train / tram / carriage roofs

KEY BENEFITS

- **Easy Application:** Apply via brush, roller, squeegee, or spray.
- **Environmentally Friendly:** Water-based, reducing harmful emissions.
- Available in multiple colours for customizable finishes.

TECHNICAL HIGHLIGHTS

- **Coverage:** 50m² at 400 microns with a 20L pack
- **Drying Time:** Touch dry in 30 minutes; hard dry in 24 hours
- **Heat Resistance:** Wet heat up to 50°C; dry heat up to 90°C
- **Shelf Life:** 5 years if stored properly

HOW TO USE?

- **Preparation:** Clean and prepare the surface as per recommendations.
- **Mixing:** No hassle! A single-component product—just agitate and apply.
- **Application:** Build layers with ease; apply two coats for optimal protection.
