Threat Modeling Input	Jira		
	Confluence		
	Architecture Diagrams		
	SAST/DAST Reports		
	Audio Recording	\bigcirc	8
	Source Code		
	Spreadsheets		
	Servicenow	\bigcirc	8
	Google Docs		
	Slack		8
	Screenshots		×
Human-in- the-Loop	Review and edit by human at each step possible		
Al Capabilities	Context-aware threat generation		
	Maps risks to controls		
	Recursive expert-like logic	\bigcirc	
Explainability	Every risk insight is backed by traceable logic and data		Partial
Compliance Coverage	PCI DSS		
	HIPAA		
	FDA		8
	DORA		8
	SOC 2		
	ISO 27001		8
	OWASP		
	NIST		
	GDPR		
Contextual Intelligence	Pulls security guidance directly from official vendor docs		8
	Maps threats using real product behavior		Partial
	Updates knowledge base automatically as vendor docs change		8
Audit Support	Audit trail per control		
Document Parsing & Integration	Multi-source context stitching		
Customization & Control	Exclude specific threats your team already handles		
	Suppress controls that don't apply to your environment		
	Customize threat model scope for each project/team
