A CLEAR VIEW

Your condo association may insure the building and common areas – but not what makes your unit yours.

Edison offers coverage tailored to condo unit owners by safeguarding:

- Your unit's walls, floors, and built-ins
- Everything you own inside the unit
- Living costs if your condo can't be used
- Legal costs for injury/property damage to others
- Medical costs for minor mishaps at home

Save more on your home's protection with Edison Insurance Company. We offer a variety of discounts, including savings for monitored security systems and claims-free histories. Additional discounts may apply for seniors (55+), paid-in-full premiums, and owners with strong credit.
