## Latest Announcements

[Read The Full Release](#)

**NeuralCloud Solutions, a subsidiary of AIML, has initiated a pilot program with Toronto Heart Centre to evaluate CardioYield, an AI-powered solution for Holter ECG reporting.**

The study will measure time savings, throughput improvements, and quality enhancements. CardioYield, built on the MaxYield™ AI technology, automates critical ECG signal-processing tasks including baseline removal and PQRST labeling.

---

**NeuralCloud Solutions has initiated a pilot of its CardioYield platform with a Canadian cardiology clinic.**

The system enhances Holter ECG analysis accuracy through its MaxYield AI engine while automating clinical workflows. Full commercialization awaits Health Canada regulatory clearance.

[Subscribe](#)[Past Issues](#)[About AI/ML Innovations Inc.](#)[\(CSE :AIML | OTCQB :AIMLF | FWB :42FB\)](#)

AIML deploys advanced AI and neural-network signal-processing to turn noisy biometric data- starting with ECG - into diagnostic-grade insight. Our flagship MaxYield™ platform, now in FDA 510(k) review, powers wearables and remote-monitoring systems worldwide. With recent advisory appointments and a new SaaS deal with Circular Health, AIML is scaling validated, cloud-based ECG clarity for global healthcare.
