

Resource Coordinator

Santa Cruz County needs YOU right now.

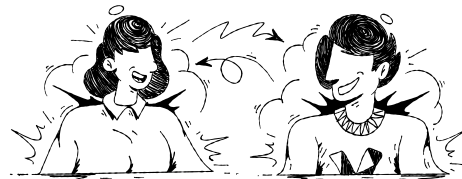

36,000+

36,000 of your neighbors
are living in poverty.

1,700+

Over 1,700 are living
without a home.

They don't need more programs — they need a person. Someone who knows the resources. Someone who shows up. As a Resource Coordinator, you become that person.

One conversation at a time, you connect real people to real help. It's not complicated. It's not a second job. It's a few hours a week that change everything. The need is urgent. The training is provided. The impact is immediate.

Will you step in?

Santa Cruz County is ready — are you?

A community of 270,000 people is waiting to be connected, supported, and empowered. Navigating the maze of social services is overwhelming — but it doesn't have to be.

As a Resource Coordinator, you become the bridge between neighbors in need and the help that already exists. Real resources. Real relationships. Real change. You don't have to fix everything — you just have to show up.

Training is provided. The work is meaningful. The reward is watching someone's life turn a corner because you made a call, made a connection, made a difference.

This is your invitation. Step in.
