

Injection Moulding Since 1958

Uniplas was formed in 2006 when Lamnei Plastics 1990 Ltd and All Plastics Limited merged. Lamnei was established in 1958 and All Plastics in 1973 – the merger of the two companies bringing together a formidable amount of experience in product development and specialist injection moulding for enterprises throughout New Zealand and Overseas.

Uniplas is based in the Wellington region of New Zealand in modern manufacturing premises situated in the Lower Hutt valley. We operate 22 injection moulding machines, ranging in capacity from 15 to 750 tonnes clamp giving a capability of producing parts from under 1 gram to over 4 kg in a wide variety of materials. Uniplas also operates a comprehensively equipped toolroom for mould tooling and prototype development.

- Mould Design and Toolmaking
- Post mould Assembly and Packaging
- Encapsulation and Insert Moulding
- Multi-component Injection
- Ultrasonic Welding
- Printing, Embossing and Labelling
- ISO 9001:2008 certification
- UL Recognised Moulder

Products

Uniplas produce and stock a range of products that have been developed for a number of key industry sectors. These are supplied in standard configurations and colours as shown, however we welcome enquiries about the production of these items in different configurations, alternate materials or colours to match your requirements.

We are also able to develop “specific to your needs” design variations of products in any of these product categories and welcome your enquiry.

Our components include...

Electrical Components	Industrial Packaging	Furniture/Metalwork Components	Materials Handling
• Transformer Bobbins • Grommets • Knockouts • Kommets	• Pails • Pots • Bag Handles	• Glides • Handles • Tips • Plugs	• Bread Crates

Transformer Bobbins

We offer a wide range of bobbins in Plain, Centre-Divided and Off-Centre-Divided formats. Bobbins can be moulded in High Temperature Glass Filled Nylon 66, Polyester or Rynite.

We have the only bobbin pinning machine in the country. We pin several varieties of our bobbins. Please contact us if you would like a sample.

They are all extremely well priced and discounts are available when ordering large quantities. Our bobbins have been divided into five categories to help you find the one which best suits your needs. If you require a specialist size which we do not have we are able to make tools at competitive prices to meet your demands.

Please contact us if you can not find the right bobbin or have any further questions.
