

Deep farming Smir Oceanis

**Robust and user-friendly
submersible cage system**

In close collaboration with Badinotti Group and our subsidiaries KB and Smir SET, Smir offers a complete solution for deep farming that combines innovative technology with first-class service and diving operations. KB is Norway's leading provider of diving services for deep farming, while Badinotti Group brings more than 20 years of experience delivering submersible cage systems to aquaculture facilities in highly exposed locations, where the primary focus has been protecting installations from harsh weather and sea conditions. Together, we have developed Smir Oceanis – a submersible cage system tailored for modern deep farming.

Key advantages

- ✓ Highly user-friendly
- ✓ Seamless and efficient raising and submerging process
- ✓ Marginal reduction of net volume during raising and submerging
- ✓ Can be delivered as new or rebuilt from the farmer's existing conventional cages

Key features

- ✓ Air- and water valves for raising and submerging the cage
- ✓ Zipper openings in top net for easy handling of equipment
- ✓ Air dome in HDPE
- ✓ Service raft for power, network, and air supply
