

Powerful Temperature Control

Save on unnecessary wear & tear and over chlorination with powerful HPE™ temperature control technology.

The **HPE** (Heat Pump Enabled) option is now available to order on all Pool Controls chlorinators. Simply choose your Pool Controls chlorinator and add code **27501172 (HPE)**, which comprises the necessary software and HPE Adapter Cable. HPE option is the easy way to control your pools Heat Pump by simply connecting the Pool Controls HPE Adapter Cable to the chlorinator, and heater* and allowing automatic temperature control.

HPE OPTION

HPE Option allows your heat pump to continue maintaining your pool temperature, even after the filtration period has ended, reducing the risk of over chlorination and damaging your pool.

HPE BENEFITS

- *Extend the lifetime of your pool with accurate chlorination control*
- *Simple Installation*
- *Set & Forget Technology*
- *Operates using Single Filtration Pump*
- *No Additional Pump / Control Box required*
- *Designed and Made in Australia*

*Licensed Electrician Required
