## Who We Are

Spratley & Partners are an approachable team of architects, with a reputation for maximising the potential of people, design, planning and return on investment. Youthful and dynamic designers, we exercise smart thinking, strong commercial knowledge and work hard to deliver without compromise, forming enduring relationships with our clients by working without ego, listening and adapting our thinking accordingly.

Sustainability is at the core of our practice and our retrofit-first approach means we are able to bring new life to renovations and make clever interventions to period properties. New builds are designed with a tangible sense of identity and our projects provide record rental returns, utilise pioneering innovation and win national acclaim.

With offices in Henley-on-Thames and Bristol, we work predominantly in London, the South East and South West, across a broad range of projects from private homes, boutique hotels and country estates to business parks, research labs and elite universities.

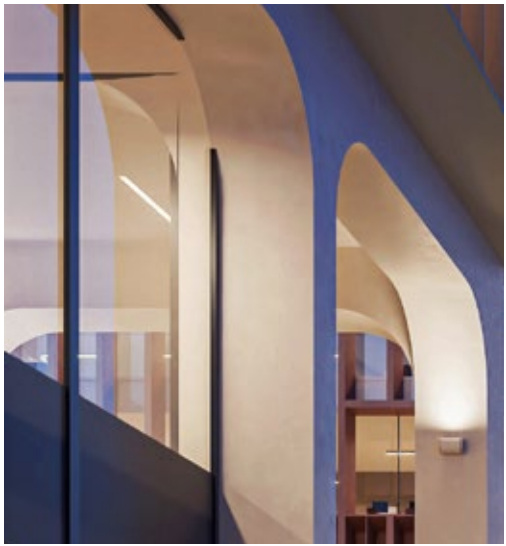

Our award-winning work in this realm includes spaces for education, research science, technology and innovation. We think about those that will use and experience the buildings and environments and how best to create places that will ignite inspiration, encourage collaboration and drive discoveries.

Projects range from complete refurbishments of existing buildings through to new builds, each designed to the exacting standards required by this sector. Adaptability within the structure is important in an area where requirements can change quickly and we design accordingly, incorporating latest technologies and thinking.
