

ATLANTIC SOFT CLOSE HINGE

Lite

NEW MultiFit Lite Soft Close Hinge

The Atlantic MultiFit Lite Hinge is a premium soft-closing hinge designed for lighter gate systems, typically 1.2 metres high or less. Suitable for aluminium, steel, timber, and PVC gates, it delivers reliable performance in a slimline, contemporary design.

Available in black or white with paintable covers, it blends seamlessly with any gate style. Controlled soft-closing action enhances pool safety, while a discreet non-climbable cap adds extra protection.

Quick to install, with easy adjustment and ratchet tension control, this patent-pending hinge exceeds stringent Australian standards and is backed by a three-year warranty.
