

WHAT TO EXPECT

We strive to provide you with the excellent experience and reliability you deserve for your business. Please take a few minutes to review this information:

Cleaning

We use the most current technologies to ensure your business shines its brightest. Our cleaning services include glass, screens, and sills.

Accessibility

Due to insurance and liability issues, we do not ask our cleaners to move bulky items that obstruct window access. Cleaners can start on the exterior windows to allow time for you or your employees to move any obstructions.

Additional Services

The removal of paint, tape, or water/chemical stains from your windows is not included in a standard cleaning. These services are more involved and may be available for an additional charge.

Scheduling

Our scheduling software allows us to efficiently schedule work so you can trust we will show up.

Frequency

The price of your cleaning is based partially on how often your windows are cleaned. This is not a contract, rather a way to guarantee your windows stay at a consistent level of cleanliness.

Our Staff

Our cleaners are courteous, uniformed professionals trained to work quickly, efficiently, and safely.

Guarantee

We appreciate your feedback and, in the rare case that you are dissatisfied with the services you receive, we will send out a cleaner to correct any issues at no charge.

Payment

Payment is expected at the time of service unless other arrangements have been made prior to the cleaning.
