INTRODUCING FOROMA

At Foroma , we specialise in creating bespoke lighting and workplace solutions tailored to meet the unique needs of our clients. Our strength lies in our people, expertise and brand partnership with valued associates at LAMP ES, Targetti, Miller Knoll, Brunner, Artemide and Petite Friture among others. These collaborations provide us with deep product knowledge, and commercial expertise, allowing us to deliver exceptional results.

We believe that the foundation of our success is built on the strong relationship we cultivate – whether with clients, partners, or our team. These relationships enable us to create workplace strategies that not only address the needs of today's office environment but also anticipate the future growth and evolving trends of how we work. At Foroma we focus on integrating lighting design and furniture in ways

that enhance any space-whether that's the office, retail or social space.

We believe that lighting and furniture is an integral element of any workplace design, directly influencing the ambiance and creating the overall environment.

A well-designed workplace not only reflects the culture of your business but also supports the health and wellbeing of your most important asset – your people.

Our philosophy is simple: we aim to create and deliver inspiring places to meet, work and socialise effectively.

To ensure that we provide the best solutions, we partner exclusively with brands that uphold the highest environmental standards, including top EPD and EquiVadis ratings. We're committed to sustainability and using planet friendly materials. If you would like to understand more about how serious we are please check the EPD certifications on our website.

We are here to help you design spaces - from vision to reality – that inspire and thrive.

ACOUSTIC LIGHTING

Acoustics play a vital role in creating environments that offer both visual and auditory comfort. The integration of acoustics with lighting encompasses several crucial aspects:

1. AMBIENCE AND MOOD:

Light and sound significantly impact a space's atmosphere. Effective acoustic treatments can enrich the overall ambiance created by lighting, enhancing the immersive and pleasant experience.

2. FUNCTIONALITY AND PRODUCTIVITY:

In workspaces, combining quality lighting with efficient acoustic solutions can minimize distractions and boost productivity. Acoustic management ensures that lighting installations do not introduce unwanted noise, such as humming or buzzing, which can disrupt focus.

3. AESTHETIC INTEGRATION:

Modern lighting fixtures often incorporate acoustic materials to seamlessly blend into a space's design. These dual-purpose fixtures offer both lighting and sound absorption, maintaining a sleek and unified aesthetic.

4. COMFORT AND WELL-BEING:

Acoustic comfort is crucial for occupants' well-being. Spaces with balanced lighting and sound control help prevent sensory overload, creating a more comfortable environment that reduces stress and enhances overall productivity.

5. ENHANCED AUDIO-VISUAL EXPERIENCE:

In areas like offices, conference rooms, and collaboration spaces, the synergy between lighting and acoustics is essential. A considered lighting scheme will improve visibility and concentration, while good acoustics ensure clear sound quality, enhancing the audio-visual experience.

SMALL CHANGES CAN MAKE
A BIG DIFFERENCE.

EVERY **PROJECT** HAS ITS OWN
SET OF CRITERIA, WHETHER
IT'S AN **ORIGINAL CONCEPT**
OR A **CUSTOMISED ORDER**.
WE DESIGN THE LIGHTING
YOUR **PROJECT** NEEDS.

BESPOKE SERVICE

WHEN A PROJECT DEMANDS
SOMETHING **TRULY UNIQUE**, AND
WE THRIVE ON THOSE **MOMENTS OF
INSPIRATION**. IF YOU HAVE A SPECIFIC
LIGHTING PIECE IN MIND, WE CAN
COLLABORATE WITH YOU TO **BRING
YOUR VISION TO LIFE.**

SUSTAINABLE LIGHTING

- 80% Recycled aluminium in extrusion of luminaires
- Introduction of design and conceptualisation strategies to encourage circularity in our products and reduce their environmental impact. (Regulation EU 2019/2020.)
- Migration to the use of recycled materials, such as the use of recycled aluminium with the ASI seal, rPET, rCork etc, and/or biodegradable materials.
- Other initiatives include:
 - Recycled cork from Wine corks
 - Polyester Felt from recycled water bottles
 - Incorporation of recycled polycarbonate r-pc fr white tm with bromine - free flame retardant for reflectors
- Design of highly durable light fittings (minimum durability 50000 L80B10)
- 100% of our product portfolio comprised of luminaires that can be repaired and updated once the lifetime of the electronics is complete.
- Design of new products and re-engineering work to ensure lighting solutions with high energy efficiency.

SUSTAINABLE LIGHTING

RR THE **RECYCLED CORK** USED IN **STORMBELL 80** SHADES COMES FROM RECYCLING STOPPERS THAT HAVE BEEN COLLECTED BY PEOPLE WITH SOCIAL INTEGRATION DIFFICULTIES. IN TURN, THE MATERIAL OF THE HOODS OF THE LUMINAIRES IS **REUSABLE AND RECYCLABLE**, WHICH IS WHY THEY HAVE THE ECO FRIENDLY DESIGN LABEL THAT ALSO ACCOMPANIES OTHER PRODUCTS THAT SEE CORK AS AN ALLY IN THE TRANSITION TOWARDS MORE **SUSTAINABLE** CIRCULAR PRODUCTION MODELS. INTRODUCING OUR NEW SMART PLATFORM TECHNOLOGY

AN APP THAT OFFERS:

1

We use open protocol Remote Monitoring System infrastructure and the Building 360 platform.

2

This enables us to integrate with the BMS so that that **emergency lighting tests can be conducted automatically** using sceneCOM EVO system architecture and the Building Asset360 market approach.

3

This **maximises lighting management effectiveness** and supports labour efficiencies.

4

Enhanced asset lifecycle by addressing electrical anomalies and monitoring temperature fluctuations.

5

The **3D floor plans** allow the Engineering Team to view emergency lights down to individual fittings - highlighting luminaires that have failed their automated emergency light test or are close to their predetermined limits.

6

The **dashboard** containing this information is fully customisable and alerts can be sent to the Engineering Team by email or CAFM notification.

7

The ability to **pre-empt failures**, conduct diagnosis of the cause of failure and plan works more effectively and proactively.

8

The ability to **monitor total energy usage** associated with the emergency lighting – as well as the output power of each fitting.

9

A futureproof system with capabilities for **expansion**. (Potential to manage multiple properties)

10

A back up log of all **emergency tests and checks** for compliance purposes.

AT FOROMA, OUR BESPOKE SERVICE IS TAILORED TO MEET THE SPECIFIC REQUIREMENTS OF EACH INDIVIDUAL SPACE AND ITS OCCUPANTS. OUR LIGHTING DESIGN EXPERTS CRAFT METICUOLOUS, LIGHTING DESIGN SCHEMES THAT ARE THOUGHTFULLY CURATED TO ENHANCE THE UNIQUE FEATURES OF EVERY ENVIRONMENT.

Our design experts craft meticulous interior and lighting schemes that are thoughtfully curated to enhance the unique features of every environment. Whether its lighting or furniture, our goal is to transform spaces into vibrant, productive environments that reflect the vision and values of our clients.

PLAN & DESIGN SERVICES

HOW WE WORK -CONSULTANCY - OUR PROCESS

1

PROJECT BRIEFING

- Develop project objective from the client Including: Aesthetics, Quality, Function, Aspirations
- Client interview session with design team
- Scheme / concept design
- Establish budget
- Define procurement programme

2

CONCEPT DESIGN

- Showroom tours
- Supplier evaluation
- Budget review
- Tender document release
- Curve and Furniture Forum design workshops

3

DETAIL DESIGN AND PROCUREMENT

- Tender to agreed manufacturers
- Order strategies
- Programme confirmation
- Project execution plan
- Site surveys
- Full logistic packs
- Final negotiations with suppliers

DESIGN & PROCUREMENT PHASE

4

PROJECT MANAGEMENT

- Order placement & acknowledgement confirmation
- Order tracking & reporting
- On-going drawing co-ordination
- Financial management of orders
- Project & programme management

5

DELIVERY

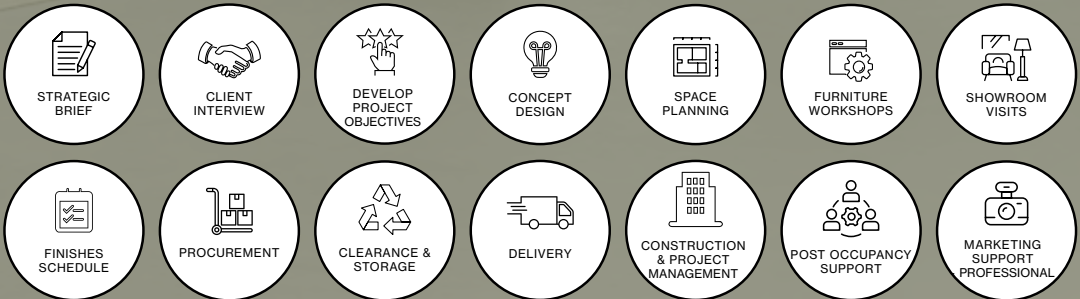

- Site Liaison – RAMS creation
- Delivery Co-ordination
- Snagging, Sign Off, H & S
- Waste management, waste reporting
- O&M provision, As built information, As built Drawings
- Moves & relocations

6

IN USE

- Dedicated Account manager
- Post Occupancy support
- Maintenance programme
- Product training and change management

DELIVERY & INSTALLATION PHASE

OUR OVERARCHING MISSION WILL CONTINUE TO
FOCUS ON CREATING **WORKPLACES THAT DELIGHT,
INSPIRE AND ENABLE BUSINESSES TO ACHIEVE
THEIR ASPIRATIONS.** WE ACHIEVE THIS THROUGH
OUR COMPREHENSIVE, CONSISTENT DESIGN AND
DELIVERY APPROACH:

Lamp Workstyles follows a simple, tried and tested three step process to ensure the best possible outcomes for our clients:

CONSULT, PROCURE, DELIVER

We work alongside every client to understand the design needs and aspirations of both the employer and employees.

We analyse, often in collaboration with our breadth of experts as Curve Workplaces, a client's business model and key drivers – functional needs for growth alongside desired aesthetics.

THEN GIVE OUR EXPERT ADVICE TO DELIVER BESPOKE OUTCOMES:

- ✓ We always agree our procurement process to ensure that the best possible value is achieved
- ✓ We are particularly meticulous about budget planning, management and reporting
- ✓ We then engage our in-depth industry knowledge and purchasing expertise
- ✓ We have always put a strong emphasis on our supplier relationships

Following the mantra – **‘IF THEY FAIL WE FAIL’**

Our furniture project management experts are engaged on a project from start to finish.

‘OUR APPROACH AT **MILLERKNOLL** ADDRESSES THE HUMAN NEED OF EMPLOYEES TO IMPROVE THEIR WELLBEING, FOSTERS A SENSE OF COMMUNITY AND CONNECTION, AND HELPS ORGANISATIONS NAVIGATE, PREPARE AND DESIGN FOR CHANGE.’
