Sun Valley, Idaho

Thematic Priorities

Climate & Nature Solutions	Catalytic Finance	Culture Change
<i>Advancing strategies in nature-based solutions, place-based and global food systems and regenerative agriculture, clean and resilient energy, and community resilience, locally and globally..</i>	<i>Crafting climate and nature finance strategies and mechanisms; connecting capital to opportunities; promoting economic systems that restore and regenerate nature and communities.</i>	<i>Building initiatives to engage people to meet them where they are at with the messages and messengers that resonate most, to bring them in to be allies in the work for climate and nature.</i>

Services Offered

Strategic Advisory	Convening and Curation	Narrative Building
<i>Guiding investors and philanthropists to fund impactful solutions and to conceive, build, and launch new initiatives</i>	<i>Convening and curation to build understanding, inform creation of new initiatives, and to uplift messages and showcase solutions to drive replication, scaling, and impact.</i>	<i>Narrative expertise to shape powerful stories as well as communications support to amplify impact.</i>

Main Engagement / Stakeholders

Christensen Global engages stakeholders through strategic advising, storytelling, and coalition-building to drive systemic change in climate, nature, and resilience strategies.

- **Philanthropists & Impact Investors:** Co-develop funding strategies for nature and climate.
- **Community & Grassroots Groups:** Support community-led initiatives through capacity-building, local investment strategies, and partnerships.
- **Government & Policy Leaders:** Advise on policy design and stakeholder engagement.
- **Cultural Storytellers:** Collaborate with artists and media to shift narratives and public perception.
- **Cross-sector Coalitions:** Convene multi-stakeholder alliances to scale solutions in climate, nature-based solutions, food and agriculture, and communications.
