

OVERVIEW

1.5°Climate Strategies Group is a nationally recognized donor collaborative focused on identifying and catalyzing impactful and equitable climate solutions. Founded in 2022, the group aims to mobilize resources to rapidly scale climate philanthropy across all giving levels with a focus on moving the needle towards limiting warming to 1.5°C above pre-industrial levels. Identified projects are showcased in bi-weekly virtual “quick-pitch” presentations. You can review their semi-private member page here www.onepointfiveclimate.org/member-info, which is a filterable repository of “pitch cards” related to each presenting organization selected by their member-led steering committee.

Thematic Priorities

Climate Mitigation	Equitable Climate Solutions	Mobilizing Resources
<i>Initiatives that reduce GHG emissions</i>	<i>Emphasizing solutions addressing climate injustices and supporting marginalized communities</i>	<i>Gathering and directing financial resources</i>

Services Offered

Catalytic Investments	Quick Pitch Sessions	Pledge Program
<i>Providing a wide variety of investment options to members that can deliver gap-filling and catalytic climate impacts</i>	<i>Hosting biweekly organizational quick pitches, enabling members to make catalytic climate investments</i>	<i>Encouraging foundations and individual donors to sign the 1.5°Climate Pledge, committing to contribute at least 1.5% of their net assets annually, through 2030, towards climate philanthropy efforts.</i>
Matching Funds	1.5°Climate Fund	
<i>1.5°Climate procures true matching funds for the majority of their presentations. The nature of these matching funds and what can unlock them are disclosed in writing for each event to increase the recognition of the "true" not "fake" nature of 1.5°Climate matching funds.</i>	<i>Funds can be given unrestricted to the 1.5°Climate Fund for staff to assign to important organizations highlighted by the 1.5°Climate donor collaborative. There is a commitment that all of these 1.5°Climate Funds contributions will either unlock or create true matching funds, doubling their financial impact.</i>	

Partners and Stakeholders

- Donors: Attracting foundations, individual donors, donor advisors, entrepreneurs, and investors to contribute to climate solutions.
- Nonprofit Organizations: Supporting tax-deductible 501(c)3, non-profit 501(c4) organizations, and Political Action Committees working on climate and policy.
