Parent Guide to School Safety And Emergency Preparedness

This guide outlines school planning to ensure a safe and secure learning environment for all students and staff. It includes information that is part of the overall School Safety Plan.

The Department of Education is committed to ensuring that parents are aware of emergency incidents and occurrences that may pose a threat to the health and safety of students and staff in New York City school buildings.

Parents may enroll to receive emergency notifications by e-mail, through the Notify NYC system, which may be accessed at the following website www.nyc.gov/notifnyc or by calling 311.

In the event of an emergency, you can obtain information about your child's school in the following ways:

- Call 311
- Check the Department of Education's website at <http://schools.nyc.gov>
- Receive calls from the school's automated phone system, or text or e-mail notifications.
- Read letters sent home with the students, or posted on the school webpage.
- Parents must discuss with school officials the ways that the school will communicate emergency information with parents.

In the event of an emergency, school personnel will work in collaboration with the Central Department of Education administration, New York City Police Department, the New York City Office of Emergency Management, as well as State and Federal agencies as necessary to ensure the safety and security of students and school staff.

Parents are advised not to immediately report to the school during an emergency and to follow specific directions that are provided to ensure that all staff and students remain safe and that first responders can safely address the incident.

The background is a solid light blue. In the top right corner, there are several thin, dark teal lines representing stems, each ending in a small, bright orange circular flower. In the bottom left corner, there are similar stems with orange flowers, and one stem also features two larger, stylized red leaves.
