B2TheWorld, Inc.
Notes to the Financial Statements
For the Year Ended May 31, 2021

Note 1 – Summary of Significant Accounting Principles

Nature of Operations:

B2TheWorld, Inc., (the “Organization”) is a nonprofit organization located in Merrifield, Virginia. The Organization provides tools for physical, educational, and spiritual growth to children from countries recovering from war through transformative educational institutions. The Organization is primarily supported by contributions.

Basis of Accounting:

The financial statements of the Organization have been prepared on a modified cash basis of accounting which is a basis of accounting other than accounting principles generally accepted in the United States. Contributions and other revenue are recognized when received instead of when earned, and expenses are recognized when paid rather than when the obligation is incurred. Property and equipment are capitalized as assets and depreciated over their useful lives. Long-term receivables and mortgage obligations are recognized as assets and liabilities when incurred, with subsequent receipts or payments reported as increases or decreases to those balances.

Accounting Estimates:

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Cash and Cash Equivalents:

For purposes of reporting cash flows, the Organization considers all short-term, highly liquid money market accounts and short-term investments with an original maturity of three months or less to be cash equivalents unless restricted by the donor or the board of directors.

Income Taxes:

The Organization is a tax-exempt organization as defined in Section 501(c)(3) of the Internal Revenue Code. The modified cash basis of accounting requires management to evaluate tax positions taken by the Organization and recognize a tax liability if the Organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or other applicable taxing authorities.

Management has analyzed the tax positions taken by the Organization, and has concluded that as of May 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Organization is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

Note 1 – Summary of Significant Accounting Principles (continued)

Basis of Presentation:

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) in its Accounting Standards Update (“ASU”) 2016-14 *Presentation of Financial Statements of Not-for-Profit Entities*. Under FASB ASU 2016-14, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

Net assets without donor restrictions include undesignated and board-designated sources with no legally donor-imposed restrictions.

Net assets with donor restrictions represent net assets subject to donor-imposed or legal restrictions, which will either be met by the Organization’s actions, the passage of time, or are perpetual in nature. Net assets with donor restrictions assets are reclassified to net assets without donor restrictions when the restrictions are met or have expired. These reclassifications are reported in the Statement of Revenue, Expenditures, and Changes in Net Assets-Modified Cash Basis as net assets released from restrictions.

Use of Estimates:

In preparing financial statements in conformity with the modified cash basis of accounting, management makes estimates and assumptions affecting the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements, as well as reported amounts of revenue and expenses during the reporting period.

Functional Expenses:

The Organization classifies expenses into functional programs and supporting services (administration and fundraising). The program service function includes all expenses directly related to the Organization’s objective described in the nature of activities. Expenses directly identified with the programs are charged to that program, and where those expenses affect more than one program or supporting service, they are allocated on the basis of estimates by management.

Liquidity:

The Organization has \$155,520 of financial assets available within one year of the balance sheet date to meet cash needs for general expenditures consisting solely of cash. Other than the donor restricted amount of \$82,815, none of the financial assets are subject to donor or other contractual restrictions that make them unavailable for general expenditures within one year of the balance sheet date.

Concentration of Credit Risk:

The Organization maintains a checking account at a local bank where deposits are insured up to \$250,000 by the FDIC. At May 31, 2021, the balance was below the insured limit for the account. The Organization does not consider this balance to be exposed to any significant credit risk.

Notes to the Financial Statements
For the Year Ended May 31, 2021

Note 1 – Summary of Significant Accounting Principles (continued)

Property and Equipment:

The cost of property and equipment is depreciated over the estimated useful lives of the related assets. Leasehold improvements are amortized over the lesser of the term of the related lease or the estimated useful lives of the assets. Depreciation is computed using the straight-line method. The useful lives of property and equipment for purposes of calculating depreciation are as follows:

Building and improvements	15-39 years
Machinery and equipment	7 years
Office fixtures and equipment	6-8 years
Vehicles	5 years

Revenue and Support:

All contributions are recorded when cash is received or when ownership of donated assets is transferred to the Organization. Gifts of cash and other assets are recorded as restricted support if they are received with donor stipulations that limit the use of donated assets. All contributions are considered available for unrestricted use unless specifically restricted by the donor. Revenue that is restricted by the donor or by the specific nature of a special event is reported as an increase in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions in the Statement of Revenue, Expenditures, and Changes in Net Assets – Modified Cash Basis.

Contributions, including unconditional promises to give and certain grants are recorded at fair value when pledged by the donor. All contributions are available for unrestricted use unless specifically restricted by the donor. Conditional promises to give and certain grants are recognized when the conditions on which they depend are substantially met. Contributions that are restricted by the donor are reported as increases in net assets without donor restrictions if the restrictions expire in the fiscal year in which the contributions are recognized.

In 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2018-08, Not-for-Profit Entities (Topic 958), Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made. The Organization adopted the ASU effective on June 1, 2020. The standard requires the Organization to reassess its revenue recognition policy to accurately depict whether a transfer of assets is a contribution or exchange transaction and whether a contribution received (including government grants) is conditional or unconditional. The Organization has elected to adopt the simultaneous release option for contributions that meet restrictions in the same reporting period. The adoption of this guidance did not have a significant impact on the Organization's financial position or change in net assets.

B2TheWorld, Inc.
Notes to the Financial Statements
For the Year Ended May 31, 2021

Note 1 – Summary of Significant Accounting Principles (continued)

Contributed Services and Facilities:

The Organization receives a significant amount of donated services from unpaid volunteers. Donated services are recognized as revenues at their estimated fair value when they create or enhance nonfinancial assets, or they require specialized skills which would need to be purchased if they were not donated. Contributed services that do not meet the above criteria are not recognized as revenues and are not reported in the accompanying statements of activities because the above criteria for recognition of such volunteer effort have not been satisfied.

Advertising:

The Organization expenses advertising costs when paid. Advertising expense was \$1,959 for the year ended May 31, 2021.

Pending Accounting Changes:

In February 2016, the FASB issued ASU No. 2016-02, Leases, which will supersede the current lease requirements in ASC 840. The ASU requires lessees to recognize a right-to-use asset and related lease liability for all leases, with a limited exception for short-term leases. Leases will be classified as either finance or operating, with the classification affecting the pattern of expense recognition in the statement of revenue, expenditures and changes in net assets – modified cash. Currently, leases are classified as either capital or operating, with only capital leases recognized on the statement of assets, liabilities and net assets – modified cash basis. The reporting of lease reported expenses in the statement of revenue, expenditures and changes in net assets – modified cash basis will be generally consistent with the current guidance. The new lease guidance will be effective for the Organization’s year beginning after December 15, 2021 and will be applied using a modified retrospective transition method to the beginning of the earliest period presented. The new lease standard is expected to have no impact on the financial statements as the Organization has no lease contracts.

Note 2 – Effects of COVID 19

During the year ended May 31, 2021, as a result of the spread of the COVID 19 virus, economic conditions arose which impacted the operations of the Organization. The Organization followed restrictions, guidelines, and other health protocols. Teacher training conferences and annual partnership site visits were canceled during the fiscal year. Fundraising travel was not possible; however, the Organization was able to grow operations, maintain a steady cash flow, and build a cash reserve. The Organization was able to continue operations with safety measures in place.

Notes to the Financial Statements
For the Year Ended May 31, 2021

Note 3 - Subsequent Events

The Organization evaluated its May 31, 2021 financial statements for subsequent events through the date the financial statements were issued. Due to the ongoing COVID19 pandemic, economic conditions have continued which could negatively impact revenue. Management has stated there are no issues with liquidity, and operations are expected to continue as normal in the next fiscal year. Program activities and fundraising travel are planned to resume for the coming year. Other financial impact could occur, though such potential impact is unknown at this time.
