01 | Reconstruction service lines

01 Emergency stabilization & board-up Board-up, tarping, shoring, water extraction and temporary power, on site while the claim is still being opened. SERVICE PAGE	02 Water & flood restoration Extraction and structural drying under licensed protocols, with every moisture log captured for the file. SERVICE PAGE	03 Fire & smoke rebuild Rebuilt to pre-loss condition on occupied property, with odor remediation documented so it stays fixed. SERVICE PAGE
04 Storm, wind & hail damage Stabilization first, then roofing, envelope and site repairs; pre-registered properties go to the front of the queue. SERVICE PAGE	05 Mold & environmental Containment, remediation and clearance testing under protocol, with licensed abatement before any rebuild. SERVICE PAGE	06 Building envelope restoration Roofing, cladding, waterproofing and siding put back to manufacturer and code spec, with warranty documentation. SERVICE PAGE
07 Interior & unit rebuild Framing, drywall, flooring, paint, cabinetry and fixtures, phased to get residents home as fast as the damage allows. SERVICE PAGE	08 Scope, estimate & claim support Line-item, Xactimate-compatible estimates, SOV breakdowns and code-upgrade pricing built to be defended. SERVICE PAGE	09 24/7 emergency response One number for owners and managers: 866-404-4603. Dispatch from the nearest regional office.

02 | Who calls us

Owners & property managers with an active loss or a claim in progress

Insurance carriers & adjusters who need a defensible scope

HOA & condominium boards after storm, water or fire events

Hospitality & commercial properties that cannot close

03 | Where we respond

Alabama · Arizona · California · Colorado · Florida · Georgia · Idaho · Nevada · New Mexico · North Carolina · Oregon · South Carolina · Tennessee · Texas · Utah · Washington · Wyoming

Crews dispatched from the nearest of 18 offices, with storm response planned into each region.

01 | How a loss runs

- 01 Stabilize**
Make the building safe and stop the damage from spreading: board-up, tarps, extraction, power.
- 02 Document**
Moisture mapping, drying logs and a located photo report from day one.
- 03 Scope & estimate**
Line-item, Xactimate-compatible estimate with code upgrades priced separately.
- 04 Rebuild**
Phased around residents, with supplements documented as conditions are found.
- 05 Close the file**
Photo record, SOV and change log, so the claim closes without a re-inspection fight.

02 | What carriers & adjusters get

- ✓ IICRC WRT / ASD certified drying
- ✓ Xactimate-compatible line items
- ✓ Drying logs and moisture readings for the file
- ✓ Located, time-stamped photo reports
- ✓ SOV and change documentation for every supplement

BEFORE THE NEXT STORM

Pre-register your properties. Send us building lists, access and contacts now. When a regional event hits, pre-registered properties go to the front of the queue.

Every job leaves a record: drying logs, a located photo report, the line-item estimate and a change log for each supplement.

Active loss? Call now.

Water running or a building open to weather: call 866-404-4603 and we dispatch from the nearest regional office. For planned claim work, send the loss details and we will scope it.
