Foundations of AI Readiness in Education: Compliance, Literacy, & Innovation

Unlocking Education's FAIR Ed course equips educators and leaders with the skills and knowledge to navigate AI responsibly, effectively, and confidently. This 15-hour microcredential blends compliance, literacy, and innovation to prepare schools for the future of learning.

Course Overview

Participants explore core dimensions of AI in education, including:

1. **Foundations of AI in Education**
What AI is and how it is shaping schools.
2. **AI Literacy and Professional Growth**
Building confidence and skills for educators and students.
3. **Ethical and Responsible Use**
Guiding principles that prioritize fairness, safety, and accountability.
4. **Data Privacy and Security**
Protecting student data and meeting legal obligations.
5. **Equity and Civil Rights**
Ensuring inclusivity and reducing digital divides.
6. **Instructional Integration**
Aligning AI tools with teaching and learning goals.
7. **Assessment and Student Support**
Using AI to inform instruction and readiness.
8. **Academic Integrity**
Encouraging honest, transparent, and ethical AI use.

9. Policy and Compliance

Developing school and district policies aligned with evolving laws.

10. Human Oversight

Empowering educators as decision-makers in AI-supported systems.

11. Strategic Planning

Building roadmaps for sustainable AI integration.

12. Administrative Efficiency

Reducing workload through smart automation.

13. Community Engagement

Partnering with families and stakeholders in AI literacy.

14. Career Pathways

Connecting classroom learning to future-ready workforce opportunities.

15. Innovation and Application

Inspiring creativity through challenges, projects, and real-world use.

By the end of FAIR Ed, participants will be able to:

- Navigate AI compliance and civil rights requirements.
- Evaluate and integrate AI tools responsibly.
- Foster student readiness for future academic and workforce pathways.
- Lead conversations on ethical, effective AI use in their schools and districts.
