

# Vaping Awareness & Prevention Student Course

*Empowering Students, Protecting Futures.*

## VAPING AWARENESS & PREVENTION

### What is the Vaping Awareness and Prevention Course?

This interactive course helps schools address student vaping through **education and reflection**. Students learn about Big Tobacco-style marketing, vaping risks, peer pressure, refusal skills, and healthy coping strategies.

Course includes quizzes, a reflection guide for discussion, and a certificate of completion; an effective, ready-to-use intervention for schools needing to address vaping behavior.

### Who is this course for?

Designed for middle schools, high schools, and districts wanting to help students caught vaping.

#### Restorative Approach

Consequences and discipline addresses past behavior. Education changes future behavior.

### Key Benefits and Features

- Students are given an opportunity to learn about making **better choices** and the **dangers of vaping**.
- Allows schools to easily add a layer of **education and remediation** to what they are already doing.
- Answers must be correct and course must be 100% complete before **certificate of completion** is issued.
- Included student workbook can be completed and returned to facilitate connection & conversation around the behavior.
- **Customized** video introduction can be uploaded for schools who want the course to be seamless and increase its impact
- **Easy Implementation:** Enrollment link is sent to student email address and course is completed online.
- Automatically **adjusts** to device student is using.
