

SkyDoc 

SUCCESS STORY: PARK PLANET

Park Planet Soars with SkyDoc.

PARK PLANET

Park Planet is a leading provider of outdoor recreation equipment and design services, dedicated to creating vibrant and engaging spaces for parks, playgrounds, and public areas. Founded in 2000 and headquartered in Redding, California, Park Planet has built a strong reputation for delivering turnkey solutions, from equipment supply to full installation services. With a team of approximately 25 employees and an estimated annual revenue of \$6.8 million, the company combines innovation, safety, and community-focused design to enhance outdoor experiences. Park Planet's commitment to quality and sustainability makes it a trusted partner for municipalities, schools, and developers looking to create lasting recreational spaces.

Implementation Background: Went live with NetSuite in July 2023, implemented by a NetSuite partner.

THE CHALLENGE

Park Planet faced a critical need to modernize their file management. Their on-premise server was hindering productivity and scalability. They sought a solution that would:

- **Unlock Information:** Grant immediate access to crucial project data, sales orders, and design files from anywhere.
- **Streamline Workflows:** Simplify file organization, collaboration, and version control.
- **Empower the Team:** Enable efficient file sharing for the sales team without the burden of extra NetSuite licenses.
- **Embrace the Cloud:** Migrate seamlessly to a cloud-based solution for enhanced security and accessibility.

THE SOLUTION

Park Planet partnered with SkyDoc, a cutting-edge document management solution built for NetSuite. SkyDoc empowered them to:

- **Take Flight in the Cloud:** Effortlessly migrate their files from the on-premise server to the secure and scalable cloud.
- **Organize with Ease:** Create intuitive folder structures, leverage drag-and-drop functionality, and utilize custom categories for lightning-fast file retrieval.
- **Collaborate Seamlessly:** Share files effortlessly, manage version control with ease, and streamline communication with integrated email attachments.
- **Unlock Sales Potential:** Empower the sales team to upload images directly to records without requiring expensive NetSuite licenses.
- **Experience Unmatched Integration:** Seamlessly integrate with AWS, enjoying the power of cloud storage while maintaining the intuitive feel of NetSuite's native file cabinet.

THE OUTCOME

Park Planet experienced a dramatic transformation:

- **Soaring Productivity:** Streamlined workflows and improved accessibility led to a significant increase in team efficiency.
- **Reduced Costs:** Eliminated the need for additional NetSuite licenses and benefited from the absence of file size limitations, resulting in substantial cost savings.
- **Enhanced Collaboration:** Improved team communication and streamlined file sharing fostered a more collaborative and productive work environment.
