

**SEVEN
170**

CATERHAM®

It's said that the best things come in small packages.

A sentiment our diminutive Seven has continued to affirm for over 60 years.

But even in the world of the Seven things don't come smaller than the 170. The smallest and lightest production car we've ever built.

Why?

Because small is our thing.

Small is self-confident. Small is lightweight. And small is perfectly balanced.

Small, ladies and gentlemen, is where it's at! And with a power-to-weight ratio in excess of 170bhp-per-tonne*, in a package boasting all the poise and agility you'd expect from a Caterham, we're convinced that once you drive the Seven 170 you'll agree with us when we say – small is indeed mighty.

* Specification dependent

**Say hello
to our little
friend!**

1470mm wide –

105mm narrower than

anything else in our range.

S and R Pack variants.

Weighing in at

a little over 440kg.**

0–100kph

in 6.9 seconds.

660cc turbo-charged

Suzuki engine.

84bhp with

116Nm of torque.

660cc turbo-charged

Suzuki engine.

Power-to-weight ratio of

over 170bhp-per-tonne.**

Combined CO₂

value of 109g/km.

* Standard Chassis. Smaller size is thanks to narrower wings and wheels.

** Specification dependent.

It's the small things...
