Job Title

Strapi Web Developer

Location

Remote

Client

Undisclosed

Job Summary

We are seeking a skilled Web Developer with hands-on experience in Strapi to support and enhance two active client web applications. You will play a key role in maintaining and improving Strapi-based backends, ensuring content and data flow smoothly to the front end. This is a

part-time role (10 hours/week), ideal for a developer who values flexibility and enjoys working across diverse digital products.

Responsibilities

- Maintain and enhance two client-facing web applications powered by Strapi CMS
- Customize and manage content models, APIs, and user permissions in Strapi
- Collaborate with frontend developers to deliver consistent and performant content delivery
- Implement new content structures and backend features based on client needs
- Troubleshoot backend issues and resolve API-related bugs or inconsistencies
- Ensure data integrity, security, and performance of Strapi instances
- Maintain clear documentation of configurations and deployments

Qualification

- 3+ years of backend or full-stack development experience
- Strong hands-on experience with Strapi CMS
- Proficient in JavaScript, Node.js, and working with RESTful APIs
- Familiarity with frontend frameworks (React, Next.js, or Vue) for integration support
- Comfortable using Git and following version control best practices
- Ability to manage and scale custom content types, roles, and dynamic zones in Strapi
- Strong communication skills and ability to manage multiple priorities
- Understanding of SEO and structured content strategy
- English level C1+
