Job Title

Odoo Developer

Location

Remote

Client

Undisclosed

Job Summary

We are seeking a skilled and motivated Mid-Level Odoo Developer to join our team and help design, develop, and maintain custom solutions within the Odoo ERP platform. In this role, you'llwork closely with cross-functional teams to deliver scalable and efficient business solutions using both standard and custom Odoo modules

Responsibilities

- Develop, customize, and maintain Odoo modules (both frontend and backend)
- Collaborate with functional teams to gather requirements and translate them into technical specifications
- Integrate third-party applications and APIs with Odoo
- Optimize and troubleshoot existing Odoo solutions for performance and usability
- Write clean, well-documented, and testable code following best practices
- Support end-users during rollout, training, and ongoing maintenance
- Participate in system upgrades and migrations between Odoo versions
- Contribute to technical documentation and code reviews

Qualification

- 2–4 years of hands-on experience with Odoo (v13 and above)
- Strong programming skills in Python and experience with Odoo ORM
- Good understanding of PostgreSQL databases
- Familiarity with JavaScript, HTML, CSS, and QWeb templating
- Experience working with Odoo Studio, Odoo.sh, or on-premise installations
- Understanding of Odoo's modular architecture and security model
- Ability to work independently and communicate effectively with non-technical stakeholders
- Strong problem-solving and debugging skills
