### Job Title

Data Engineer

### Location

Remote

### Client

Undisclosed

### Job Summary

As a member of the Data Engineering team at Prescient AI, you will help build and maintain reliable, analytics-ready data pipelines that power AI-driven forecasting and attribution intelligence products. This is a hands-on contract role focused on execution, quality, and collaboration across analytics, data science, and product teams. You will work within a modern analytics engineering stack centered on Python, dbt, and Dagster, primarily supporting customer onboarding and reporting workflows.

## **Responsibilities**

- 3+ years of professional experience in data engineering or analytics engineering
- Strong proficiency in Python (e.g., pandas, SQLAlchemy, psycopg2)
- Hands-on experience with dbt (Core or Cloud)
- Hands-on experience with Dagster (or similar orchestration tools)
- Advanced SQL skills (CTEs, window functions, query optimization)
- Experience with cloud data warehouses (Snowflake, BigQuery, Redshift)
- Familiarity with modern ELT tools (e.g., Airbyte, Fivetran, Meltano, dltHub)
- Experience working cross-functionally with Product, Analytics, or Data Science teams
- Ability to work independently and deliver in a contract environment

## **Qualifications**

- Proven experience as a TikTok content creator with a portfolio of successful videos.
- Strong understanding of TikTok platform features, trends, and best practices.
- Proficiency in video production techniques and relevant software.
- Creative storytelling skills with the ability to convey messages effectively through short-form videos.
- Familiarity with social media analytics tools for tracking performance.
- Excellent communication and collaboration skills.
- Ability to manage multiple projects and meet deadlines.
- Passion for social media and digital marketing.
- Join CLIENT'S dynamic team and help us create captivating TikTok content that enhances our brand presence and engages our audience.
