INTRODUCTION

Hi Ron,

Thank you for the opportunity to quote on the repairs to your home. Please find your estimate below along with upgrade options for potential improvements to your project, if applicable.

The following estimate is for:

1. Remove and disposal of old materials
2. Supply and install new materials
3. Clean up of entire work area (all nails and other materials)
4. Clean all gutters (if roof is done)
5. Your own dedicated Production Scheduling team
6. All employees are WCB and COR certified
7. We are Licensed to work in your geographical region
8. Audit of all work completed by Quality Control Officer
9. 5-year Workmanship Warranty on complete projects - (Full Roof / Full Metals or Full Siding)

We don't want you to be personally liable should a worker happen to get injured therefore we maintain current WCB for all employees and crews. We carry two million liability insurance.

As well, we have mandatory safety training for our staff to ensure safe practices always. Once the job is complete, complete an additional full inspection on your home to ensure we did everything correct and up to our strict standards and site is spotless.

If you have any questions, please give me a call. We always want to provide the best value to our clients. If we are outside your budget, please let me know and we will do our best to work within that.

Kind regards,
