# INTRODUCTION

Hi Ron,

**We recognize that safeguarding the people and possessions that hold the most value to you is of utmost importance.** Your roof serves as the primary shield against the forces of nature, shielding your home from the elements and ensuring that everything inside remains safe and dry.

Thank you for the opportunity to quote on the repairs and improvements to your home. Please find your estimate below along with upgrade options for potential improvements to your project, if applicable.

The following estimate is for:

1. Remove and disposal of old materials
2. Supply and install new materials
3. Clean up of entire work area (all nails and other materials)
4. We are fully licensed to work in your location

We don't want you to be personally liable should a worker happen to get injured therefore, maintain the highest safety program and have WCB coverage for all employees and crews. We carry two million liability insurance.

Once the job is complete, one of our Quality Control Officers from our Audit Division inspects your project to make sure we did everything correct and up to our strict standards and site is spotless.

If you have any questions, please give me a call. We always want to provide the best value to our clients. If we are outside your budget, please let me know and we will do our best to work within that.

Kind regards,
