# INTRODUCTION

Hi Jonathan,

Thank you for the opportunity to quote on the repairs to your home. Please find your estimate below along with upgrade options for potential improvements to your project, if applicable.

The following estimate is for:

1. Remove and disposal of old materials
2. Supply and install new materials
3. Clean up of entire work area (all nails and other materials)
4. Clean all gutters (if roof is done)
5. Your own dedicated Production Scheduling team
6. All employees are WCB and COR certified
7. We are Licensed to work in your geographical region
8. Audit of all work completed by Quality Control Officer
9. 5-year Workmanship Warranty on complete projects - (Full Roof / Full Metals or Full Siding)

We don't want you to be personally liable should a worker happen to get injured therefore we maintain current WCB for all employees and crews. We carry two million liability insurance.

As well, we have mandatory safety training for our staff to ensure safe practices always. Once the job is complete, complete an additional full inspection on your home to ensure we did everything correct and up to our strict standards and site is spotless.

If you have any questions, please give me a call. We always want to provide the best value to our clients. If we are outside your budget, please let me know and we will do our best to work within that.

Kind regards,

Benjamin Munroe | Owner

# Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

## 1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

## 2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

## 3. Starter Shingles

Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

## 4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

## 5. Hip & Ridge Caps

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

## 6. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
