

SUNPORT

by Kingdom Sun

The future of solar
is **wood**.

The Sunport is a big-timber carport with timeless appeal, versatile storage, and enough solar energy to power your life — all for a cost that competes with conventional solar.

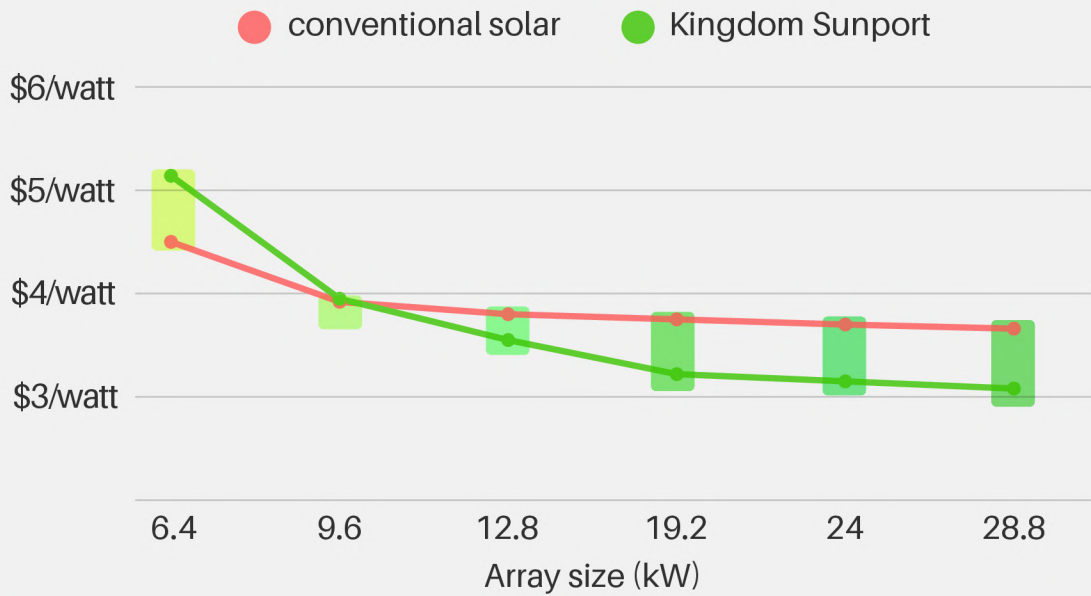

- ✓ **All local timbers:** supports local forests and businesses
- ✓ **Gorgeous design:** the Sunport enhances your property's value and beauty
- ✓ **Versatile storage:** a multi-purpose carport, storage, workspace, or hangout
- ✓ **Engineered for sh*t weather:** 120 mph winds/70psf snow/natural rot resistance
- ✓ **Modular:** as many bays as you need
- ✓ **Abundant energy:** produces enough energy to power your life for 25+ years
- ✓ **Savvy investment:** built to stand for generations
- ✓ **End-to-end service:** we handle the entire build from ground to sky

Comparable cost. Incomparable value.

VS.

- Single-use
- Leaks
- Wins no beauty contests
- High initial carbon footprint
- Structure from overseas

- **Multi-use**
- **Sheds water**
- **Stunning design**
- **Carbon-negative from the start**
- **Local timbers**

Dimensions & designs

1-5 bays

**Modular design =
unlimited possibilities**

Choose from 1 to 5+ bays.

Pull in from any direction.

Power a more comfortable life.

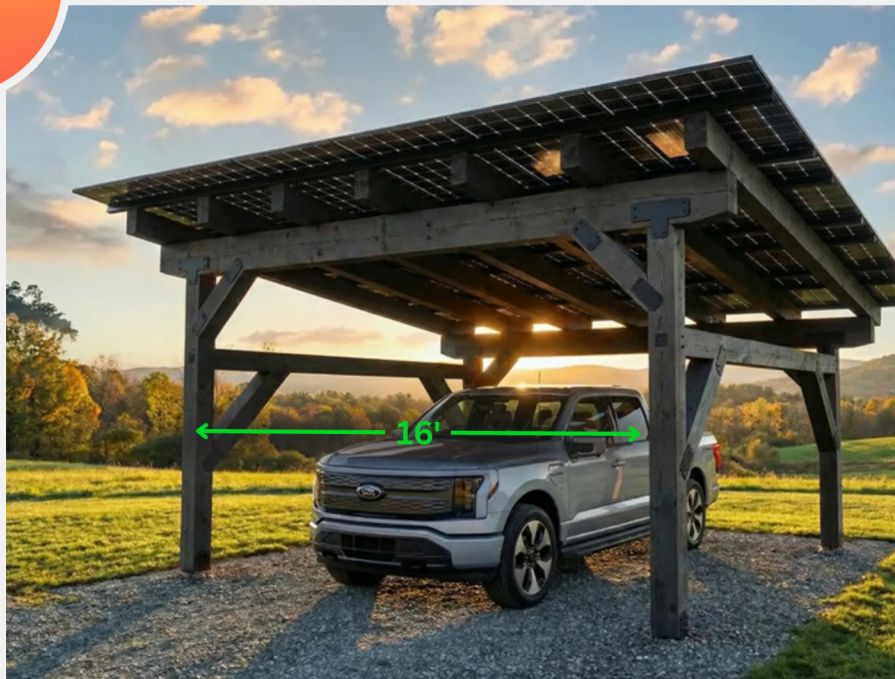

1 bay XL

A wider single bay.

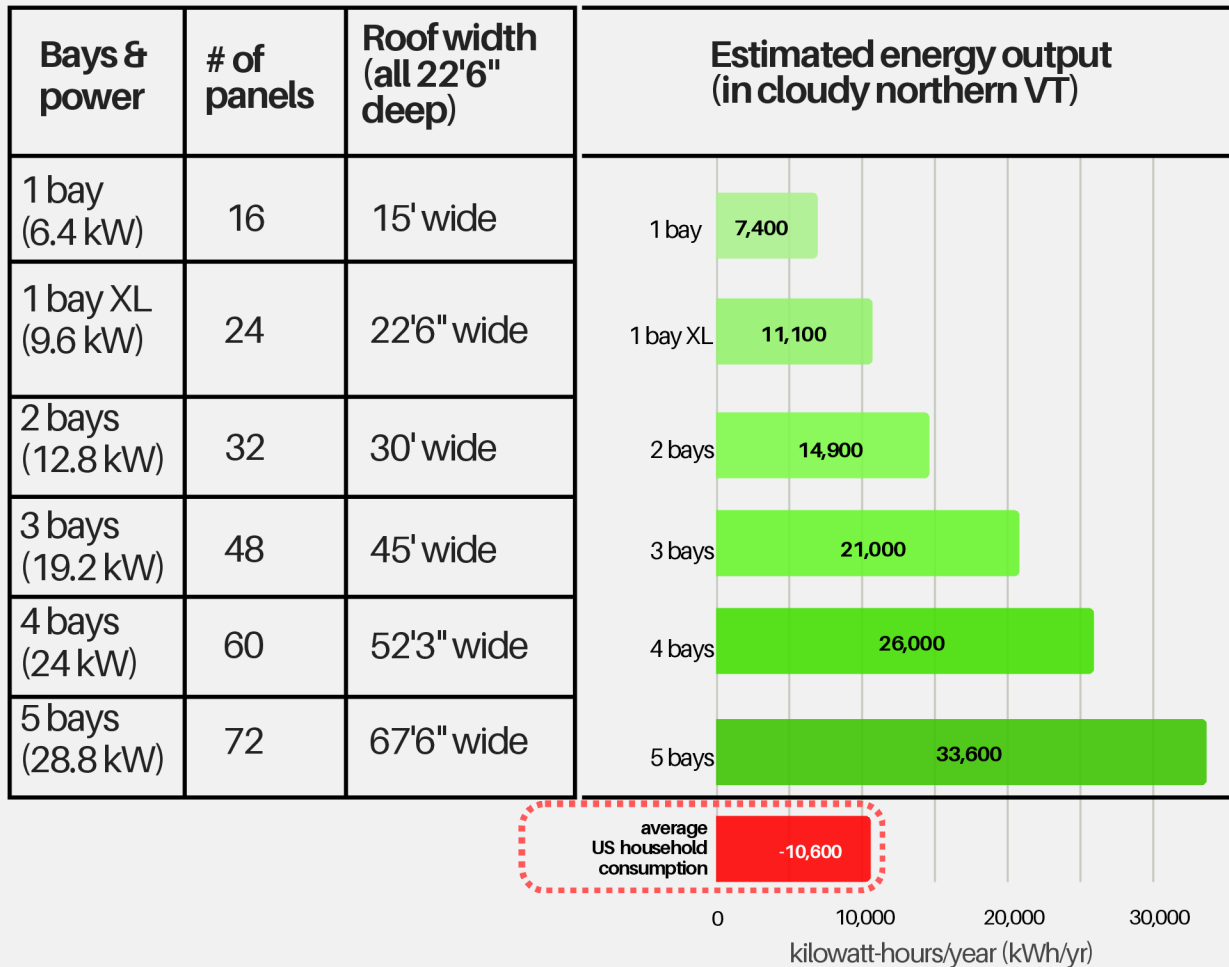

Park 2 cars with a 16' opening.

50% more energy than a 1-bay.

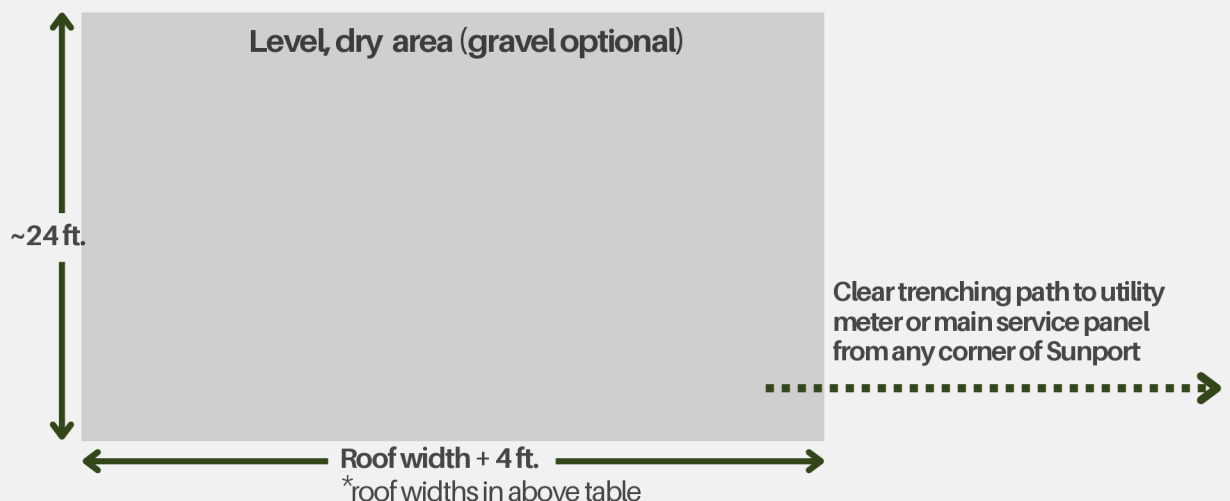

Multi-use: parking, picnic, storage, etc.

Info:
