

CLOSINGS USING Navi E-Sign

SCHEDULING TIPS

TIME

- **Signing together?** If you're in the same location, you can close at the same time on the same device.
- **Signing separately?** No problem! Just choose a time that works for you - the other party can sign at a different time that works for them.
- **Business hours are best.** Scheduling during business hours gives you access to your Title Company in case questions come up that NTS can't answer.

WHAT YOU'LL NEED

- A device with a **camera, microphone, and speaker** (smartphone, tablet, or computer)
- A **strong internet connection** or reliable cellular data
