

# Certificate

EU-REDcert - 560 - 26490057

By means of an audit on 04.05.2026, documented in a report.

## SC@PE International GmbH

Certification Body

Am Schapenteich 2, D-38104 Braunschweig

confirms to

**OHplus GmbH**

REDcert-ID: 2600

Athenslebener Weg 51b, 39418 Staßfurt, Germany

Longitude: 11°,57332 O and Latitude: 51°,86320 N

the compliance with the requirements of the certification scheme

**REDcert-EU**

a scheme for demonstrating compliance with the sustainability criteria under the Revised Directive (EU) 2018/2001 of the European Parliament and of the Council

**This certificate serves as proof of compliance with the requirements of Revised Directive (EU) 2018/2001 for the following scope(s):**

- |                                                                                                           |                                                                                    |
|-----------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| <input type="checkbox"/> (201) first gathering point                                                      | <input checked="" type="checkbox"/> (202) collector of waste/residues              |
| <input type="checkbox"/> (301) oil mill/fat refinery                                                      | <input type="checkbox"/> (302) sugar mill                                          |
| <input type="checkbox"/> (303) biogas plant                                                               | <input type="checkbox"/> (304) fat melting plant                                   |

**OHplus GmbH**

REDcert-ID: 2600

Athenslebener Weg 51b, 39418 Staßfurt, Germany

Decision on: 08.05.2026

Validity: from 15.05.2026 to 14.05.2027

### Sustainable biomass / renewable fuel used, processed or traded by the certified site

| Type of biomass and / or renewable fuel <sup>1</sup> | Category <sup>2</sup> | Scope <sup>3</sup> | Type of GHG calculation <sup>4</sup> |     |    |
|------------------------------------------------------|-----------------------|--------------------|--------------------------------------|-----|----|
|                                                      |                       |                    | NUTS2                                | DFV | AC |
| G-Phase (Glycerine)   Crude glycerine                | Annex IX Part A       | 202 306 501        |                                      |     | x  |
| Refined Glycerine                                    | Intermediate          | 202 306 501        |                                      |     | x  |
| Methanol                                             | Intermediate          | 306                |                                      |     | x  |
|                                                      |                       |                    |                                      |     |    |
|                                                      |                       |                    |                                      |     |    |
|                                                      |                       |                    |                                      |     |    |
|                                                      |                       |                    |                                      |     |    |
|                                                      |                       |                    |                                      |     |    |

<sup>1</sup>as checked and reported in the audit report, section "sustainable biomass data"

<sup>2</sup>please select biomass category

- AGRI (agricultural biomass e.g. rapeseed or other energy crops produced on farm land)
- Annex IX Part A (biomass listed under [Annex IX](#) part A of Revised Directive (EU) 2018/2001)
- Annex IX Part B (biomass listed under [Annex IX](#) part B of Revised Directive (EU) 2018/2001)
- WaR (other waste or residues not listed under Annex IX of Revised Directive (EU) 2018/2001)
- Intermediates (products produced by economic operators certified according to scopes 301 to 308 e.g. Biogas, vegetable oil, etc.)
- Final fuel (fuels produced by the last interface e.g. Biomethane, Bioethanol, FAME, etc.)

<sup>3</sup>applicable scope under which the sustainable biomass and / or renewable fuel was handled

<sup>4</sup>please select applied GHG methodology

- NUTS2: NUTS2 value (values officially recognized by the European Commission)
- DFV: default value (disaggregated or total default value)
- AC: Actual value (based on individual calculation)
